

SURVIVORS DIG IN RUINS OF PUEBLO FOR POSSESSIONS

First Trainload of Refugees
Arrives in Denver; Looter
Shot By Guard.

(Continued from Page 1)

There was made by Felipe G. Trevino, a Mexican, who has \$10,000 appropriated by the Mexican government for this purpose. A refugee camp was ready to receive the homeless today. More than 200 tents were set up yesterday and in addition a complete field hospital was available for such refugees as might require medical treatment. The camp will contain 300 tents when completed, each with a capacity of six single cots.

REFUGEES BEGIN MOVING TO CAMP

Colonel Patrick J. Hamrock announced that refugees would begin moving from the courthouse, high school and other public buildings to the refugee camp today. Major John E. Martin of Pueblo has been appointed camp commander by Colonel Hamrock and is supervising the erection of tents and other details. Colonel Pierce of Pueblo sanitary officer, and Major Harris, supply officer, they will have complete charge of the camp. Twenty-four guardsmen have been assigned to the camp for patrol duty. Colonel Hamrock expects the camp will be needed for three or four weeks.

"Refugees and relief workers using the streets constantly are interfering with the clean-up and reconstruction work," he said. "The camp will do much to remove this obstacle to our work in getting things back to normal."

Twenty-five Salvation Army workers are here from Denver, Colorado Springs and Trinidad and the mess for the refugee camp has been turned over to them. Colonel

Victims of Colorado Flood Take Their Losses Quietly

PUEBLO, Colo., June 8.—(By the Associated Press.)—Wading knee deep through mud and water in some places, a correspondent of the Associated Press today plowed through one of Pueblo's most pitiable thoroughfares of devastation—the region extending from North Main street along West Fourth, across the Atchison, Topeka and Santa Fe tracks, and toward the West Fourth street bridge, across the Adams river. The greater part of the area is a familiar calling, "Pueblo's Bottoms." It was inhabited chiefly by Mexicans and Italians. It is now practically wiped away. It is now a flat, featureless expanse of mud.

SOME FIND BODIES

As some of them dug their hands into the mud, they found human bodies instead of furniture.

In four languages these homeless ones told the correspondent, their tales of almost unbelievable misfortune.

"I am trying to find my houses," said Felix Bayle, who lost eleven dwellings, valued at about \$20,000, when the region was flooded.

Bayle, a French stock, is a car inspector for the Denver and Rio Grande railroad.

"There are many others worse off than I am," he said. "At least I have a nice little home of my own that escaped disaster. I lost much. Some people lost everything."

your service," he said. "I used to have a little business here. The number of my 'commertio' was 321 West Fourth. I saw it swept away before me on the night of the flood. When I had taken refuge in a neighbor's house, I had a good mare and buggy and a wagon. They are gone, too."

Do Ruñales pointed to the spot where he had exhumed a body about an hour before.

"Perhaps this man's wife may be there. I shall keep on digging."

Nearly could be seen a portion of a white iron bed protruding from the mire.

Jose Inez Terpones, a barber, came up with Arturo Sanchez. Both lost their homes in the flood.

WOMAN'S DEATH TRAGIC.

Both Terpones and Garcia told the story of Mrs. Martina Galban, who died at Third and Elizabeth streets, a cripple, who was drowned under particularly tragic circumstances.

Her son, about 21, had repeatedly urged that they leave the house before it was flooded. But the woman kept saying, "It's only people's idle talk. Why should the water come up here?"

Just Mrs. Galban became convinced the waters were already rushing into the house. She called to her son, who was out in the yard, to save her.

At that moment the wind shut the door, which locked automatically from the inside. In an effort to reach his mother, the youth smashed a window of the room in which she was awaiting his aid.

Grasping the branch of a tree, he reached out for his mother with the other hand. The swirling waters kept her out of his reach, whirling her round and round the room. Today her body lay in the morgue.

Antonio Valencia, a tailor, was digging in the two feet of mud that covered the floor of his small home. He had saved a few rugs and a sewing machine. He was trying to rescue his other sewing machine.

A coffee mill represented the only salvage effected by Tiburcio Mojica, Mrs. Sofia Alvarado de Gonzales.

But both men and women are chiding that they had moved inside her shirtwaist as she fled from the storm.

Walking along the Santa Fe tracks, came R. J. Ritter, a postman.

"I am looking for my route," he said. "I can't find it."

comprehending, he listened unconcerned, clutching a rag doll in his chubby hands.

LITTLE BOY CRIES FOR MOTHER.

"I want my mother," he quavered, and when told by Mrs. Fernandez that his mother had been hurt and could not come to him, he cried pathetically.

Joseph, the older boy, according to neighbors, has been in poor health and is working on a ranch in the southern part of the state to regain his strength.

Alone in the world—her husband died in the first influenza epidemic—and with no relatives in this country, Mrs. Lopez, according to her neighbors, is the sole support of the two boys. Residents of the neighborhood say that she is in very poor circumstances and was forced to work hard each day that her two children might be cared for.

With their mother in the hospital seriously injured and not able to support them, the care of the children becomes a problem, and friends of the woman intimated that 14-year-old Joseph would probably be sent for and would be forced to play the role—as best he could—of breadwinner for the family.

Unable to understand why his mother would not come to him, little Manuel sat on the steps of the small Fernandez residence this morning and sobbed, not comprehending why he was the center of attraction for more than a score of children in the neighborhood. Other times he would follow Mrs. Fernandez as she went about her household work, clutching at her apron strings and crying persistently for his "mover."

CHILDREN LEFT IN SAD PLIGHT.

"Won't my mover ever be back?" he would ask in a quavering voice. Whenever visitors, coming in to find out particulars of the accident, knocked at the door, the child, his face temporarily brightened by hope, would trudge to the front of the house with his short, slow steps.

Perceiving the visitor was not his mother, his eyes would again be darkened by clouds of disappointment, and he would repeat his piteous cries of "mover."

"I don't know what will become of the children when their mother is in the hospital," Mrs. Fernandez said today. "There is no one else to take care of them. I take care of Manuel in the daytime while his mother is at work, but I wouldn't be able to do it all the time. It costs a lot to

feed even little mouths these days, and we are poor."

"Joe, the oldest boy, is working on a ranch in the southern part of the state. He was very sick. I think he had lung trouble, and his mother sent him where he would be out in the fresh air and sunshine and get well. I don't know what will happen to him if he has to come back to the city."

Police officials said that Pass-haters' trial on a charge of driving an automobile on the wrong side of the street will not be conducted until a coroner's inquest is held.

George Davis of Denver and Staff Captain E. McClelland of Denver are in charge. They brought two carloads of provisions from Denver and will be supplying all food needed for the refugees by the citizens' committee, headed by Charles W. Lee.

MESS HALL TO HAVE CAPACITY OF 300.

One large mess hall will be built with a capacity of about 300. Three field ranges were installed today and others will be added as needed, Captain McClelland said. Agents have already been placed for the Salvation Army workers.

Colonel Hamrock estimates that there are more than 2000 homeless in the city. Many of them are Mexicans and they are virtually helpless, he said.

Only one of the thirty-one men arrested by Colorado Rangers since the beginning of flood conditions remained at the county jail here today. The other thirty were released yesterday by Captain O. J. Dennis, commander of the Rangers in order to relieve the labor shortage here.

The men were being detained on charges either of looting or vagrancy. The remaining prisoners are accused of assault and battery and probably will be brought to trial before a civil court, Captain Dennis said.

Oakland Merchants Aid Food Sufferers

An immediate response to the appeal of the Colorado flood sufferers for aid and a pledge of unanimous support to California rice day on June 11 were features of last night's meeting of the board of directors of the Merchants' Exchange.

The members of the Exchange made generous individual contributions to the flood fund and, as an organization, added \$100. The named on the Exchange committee were: Directors Williams, Strel, Bertillon, Scott and Mullins.

Resolutions requesting community support to rice day, asking hotels, cafe men and others to prepare special rice menus for the occasion, and pledging that each member will purchase five pounds of rice on Saturday were adopted by unanimous vote. George Sheldon has been named chairman of the rice day committee for Oakland.

Sister of Oakland Woman Is Survivor

Mrs. Lucinda Rowan, sister of Mrs. Rosa B. Sturtevant of Oakland, and who was thought to have lost her life in the Colorado flood, escaped without injury, according to word in the possession of Mrs. Sturtevant today. A telegram announcing that Mrs. Rowan was in the Denver and Rio Grande train that she had been rescued and was being cared for in a Pueblo home, has been delivered to the Oakland sister. Mrs. Rowan, it is expected, will come to Oakland within a short time. She has not seen her sister here for thirty-nine years.

Express Company to Rush Flood Relief

The American Railway Express of Oakland, through the local manager's department, today announced that the company would transport any amount of supplies and send money free of charge to Pueblo, providing it is addressed to the Mayor of Pueblo or any legal or charitable organization. Supplies can be left at the offices of the company at 1224 San Pablo street, marked "Colorado Relief." Money and supplies will be dispatched to the stricken city as soon as possible.

Salvation Army Asks Local Flood Relief

To aid victims in Pueblo, who have suffered from the flood, \$1000 was sent to the Salvation Army headquarters in Denver by the Salvation Army authorities here in Oakland. Army headquarters announced that they wish to aid these sufferers by contributing a small sum may do so by bringing same to 529 Ninth street or by mailing checks payable to Salvation Army and marked "Colorado Relief."

OOREGON GIVEN
POLICY OF U. S.
ON RECOGNITION

Treaty Proposed Safeguarding
American Rights in
Mexico.

WASHINGTON, June 8.—President Ooregon of Mexico will strive to obtain American recognition before any actual signing of a treaty between the United States and Mexico, such as has been proposed by Secretary Hughes, it was believed here today.

The Mexican President will take this course in order not to menace his position with the Mexican people in coming to an agreement with the United States Government which will allow extension of American recognition.

To this end, it was predicted that Ooregon may state in his next communication to the Washington government that he is willing to negotiate a treaty with the United States along the lines suggested by Hughes, provided recognition be extended to his government.

Negotiations are now going on in Mexico City between Ooregon and George T. Summerlin, charge of the American embassy.

POLICY OF U. S.

Following a cabinet meeting held yesterday, which the note of President Ooregon was discussed, the administration announced its policy regarding recognition of the Mexican republic. The American government proposes a treaty of amity and commerce with Mexico in which that nation will agree to protect the rights and persons of citizens of the United States in that country. The signing of the treaty would automatically result in the recognition of the Mexican government.

After the cabinet meeting yesterday the following statement was issued by Secretary of State Hughes:

"The fundamental question which confronts the United States in considering its relations with Mexico is the safeguarding of property rights against confiscation. Mexico is free to adopt any policy she pleases with respect to her public lands, but she is not free to destroy without compensation valid titles which have been obtained by American citizens under Mexican laws.

SECURITY OF PROPERTY.

A confiscatory policy strikes not only at the interests of particular individuals, but at the foundation of international discourse, for it is only on the basis of the security of property validly possessed under the laws existing at the time of its acquisition, that commercial transactions between the people of two countries and the conduct of activities in helpful co-operation are possible.

"This question should not be confused with any matter of personality or of the recognition of any particular administration. Whenever Mexico is ready to give assurances that she will perform her fundamental obligation in the protection, both of persons and of rights of property validly acquired, there will be no obstacles to the most advantageous relations between the two peoples.

"This question is vital because of the provisions inserted in the Mexican constitution promulgated in 1917. If these provisions are to be put into effect retroactively, properties of American citizens will be confiscated on a great scale. This would be a grave character and the government could not submit to its accomplishment.

It is said that this wrong is not intended, and that the constitution of Mexico of 1917 will not be construed to permit, or enforced so as to effect confiscation, then it is important that this should be made clear by guarantees in proper form. The provisions of the constitution and the executive decrees which have been formulated with confiscatory purposes, make it obviously necessary that the purpose of Mexico should be definitely set forth.

"Accordingly, this Government has proposed a treaty of amity and commerce with Mexico, in which Mexico will agree to safeguard the rights of property which attached before the constitution of 1917 was promulgated.

"The question, it will be observed, is not one of a particular administration but of the agreement of the nation in proper form which has become necessary as an international matter because of the provisions of its domestic legislation.

"If Mexico does not contemplate a confiscatory policy, the Government of the United States can conceive of no possible objection to the treaty.

RIGHTS SAFEGUARDED.

"The proposed treaty also contains the conventional stipulation, as to commerce and reciprocal rights in both countries. It also provides for the conclusion of a convention for the settlement of claims for losses of property and property which of course means prompt establishment of a suitable claims commission in which both countries would be represented, in order to effect a just settlement.

There is also a provision for a just settlement of boundary matters.

The question of recognition is a subject on which the United States will have no difficulty as to this, for if General Ooregon is ready to negotiate a proper treaty it is drawn so as to make the United States willing to make the making of the treaty in proper form will accomplish recognition of the government that makes it.

Within short, when it appears that there is government in Mexico willing to bind itself to the discharge of primary international obligations, concurrently with that act its recognition will take place.

"This government desires immediate and cordial relations of mutual helpfulness and amity, and that the basis of international intercourse should be properly maintained.

"Accordingly, on the 27th of May, Summerlin, in the name of the Mexican government, presented to General Ooregon a proposed treaty covering matters to which reference has been made. The matter is now in the course of negotiations and it is to be hoped that when the nature of the precise question is fully appreciated the obstacles which have been in the way of a satisfactory settlement will disappear."

Four Americans Are
Prisoners in Mexico

MEXICO CITY, June 8.—Reports credited to the Mexican war department today said four unnamed Americans had been captured between Parral and Santa Rosa, presumably by bandits. The office of the American affairs had no information on the reported incident.

JAPANESE SUED BY STATE FOR TITLE TO LAND

Claim Made That Alien Property Law Violated in Transaction.

MARYSVILLE, Cal., June 8.—A suit filed in the state of California asking the title to a tract of land at Rankin Corners, Sutter county, which the state opened here yesterday in the Superior Court, Judge P. McDaniel presiding. The action is predicated upon the allegation that the land was sold to a person ineligible for citizenship and under the land act of 1913, denied the right of owning land in California. The defendants in the suit are J. Shingui and his two daughters. The land was purchased from it and Mrs. G. L. Douglas. The suit is the first of several similar ones to be tried here.

Shingui testified he had been a resident of California for sixteen years and that he had two children and 2 years of age.

"Did you build that house on the Douglas ranch?" asked District Attorney Coates. Shingui replied: "Yes, I built it for my baby."

Attorney A. H. Hewitt of Yuba city, who made out the deed transferring the Douglas property to the Japanese, testified he could not identify the Japanese defendant as one who was in his office at the time of the transaction.

"I was asked by Douglas if any objection could be made to the children buying the property," testified Hewitt, "and I informed him that if the money with which the property was purchased belonged to the Japanese children the deed could be valid, but if the money belonged to an alien the transaction would be invalid."

"By whom was the money for the property paid?" asked Attorney General Webb.

"I cannot recall the exact circumstances of the payment," replied Hewitt, "but the money wasn't paid by the children, and it was not paid by Douglas. Therefore I assume it was paid by the Japanese in my office, who said he was father."

Old Age, His Mark

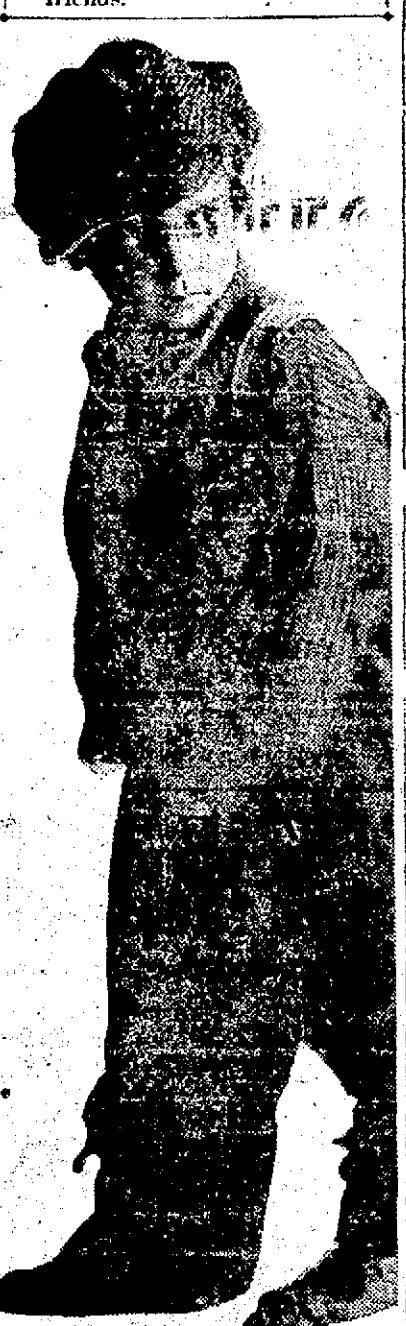

Oliver Wendell Holmes, in the charming discourses of "The Professor at the Breakfast Table," refers to an unmistakable sign of old age. It is three parallel lines between the eyes. We can detect the first signs of old age by signs just as plain.

When a woman suffers from backache, nervous depression, dragging pains, and those ailments peculiar to women, it is plain that she needs a woman's medicine. What medicine could be more wisely resorted to than Lydia E. Pinkham's Vegetable Compound, which for half a century has proved the natural remedy for these troubles?—Advertisement.

Treat in Store for Tribune Carriers and Their Friends.

Free Movie Picture and Vaudeville Show for Saturday Morning

Little JACKIE COOGAN, who will be seen in "Peck's Bad Boy" at the T. & D. Theater Saturday morning, by members of the TRIBUNE Carriers' Association and their friends.

Saturday morning is the time set aside for the big free movie picture and vaudeville show which is to be staged for the TRIBUNE carriers and their boy friends. The show is to be held at the Oakland T. & D. Theater under the auspices of that theater and the TRIBUNE Carriers' Association.

The curtain goes up at 9:45 sharp and every TRIBUNE carrier, their substitutes and all their school boy friends between the ages of 9 and 15 are invited to attend. All those who want to participate in the big parade which takes place before the entertainment must be at the Oakland T. & D. Theater by 9 o'clock sharp.

The picture to be shown is "Peck's Bad Boy," featuring little Jackie Coogan "The Kid," who is one of the world's greatest boy actors. This is the headline all this week at the T. & D. Theater, but TRIBUNE boys will see it free Saturday morning.

Another feature of the show will be a fine vaudeville program put on by a number of the TRIBUNE's clever juveniles, including some old time favorites of the boys and several new and talented performers as follows: Alberta Blair, Betty Jane Toole, Bernice Claire Johnson, Dorothy Lossman, Evelyn Cavanaugh and her little dancing chorus (Jennie Johnson, Bernice Qualls, Alta Stagonlooker, Minnie Lewis, Lorraine Qualls, Marian Cavanaugh), Walter Fischer Jr., Dorothy Burke, Adele Leahy and Josephine de Pasquale.

Remember, boys, the show starts at 9:45 sharp and be on hand by 9 o'clock for the parade.

SWEETHEARTS OF CHILDHOOD WED

The marriage of Grace G. Harvey, Oakland photographer, and Eli Harvey, sculptor of repute, took place today at Windom, Minn., culminating a romance of forty years' standing. The ceremony was performed in the home of Rev. Frederick Harvey, brother of the bride.

On Monday night the couple met in Omaha, each traversing half the distance across the continent for the rendezvous. They had met only once since the time when as playmates in Cincinnati forty years ago, they had each other good-by.

Before leaving Oakland Miss Harvey explained to Oakland friends that Harvey is a distant relative and that they were childhood sweethearts. When Miss Harvey was 12 years old she was brought here by her family from Cincinnati.

Harvey, one of whose best known works of art is his Elks' monument, copies of which have been erected in Elks' cemeteries all over the United States, was married in 1893. After the death of his wife he learned that the sweetheart of his childhood days was living in Oakland and that she had remained single. Mr. and Mrs. Harvey will live in New York city.

"Rotarians, It's Up To You," Is Subject

"Rotarians, It's Up to You!" is announced as the subject of an address to be delivered by Superintendent of Schools Fred M. Hunter before the Rotary club at its weekly luncheon tomorrow noon at the Hotel Oakland. Two new Rotarians, Adolf Haagen-son, Zumbro Co., 1403 Fifth street, and Ebenezer Wells, Weaver Wells Co., 3321 Broadway, will be introduced by J. Charles Downey and Theodore Schuler. Lee Bertillon, hatter, will give a short talk on his business.

A profound discussion on "Is the Laborer Worthy of his Hoyer," by "the eminent" authority on social economy, Max Winkhorst, will conclude the program.

BIG FOUR RAIL MEN THREATEN STRIKE JULY 1

Ballots For Vote on Walkout Of Pullman Shop Forces Are Recalled.

CHICAGO, June 8.—The "big four" brotherhood today threatened the United States railroad labor board with a nationwide strike on July 1. The threat of calling a strike that would paralyze rail traffic from coast to coast, was made during the second hearing on rail wage reductions.

Open declarations of the strike threat were made by L. G. Sheppard, president of the Order of Railway Conductors, and by W. G. Lee, president of the Brotherhood of Railway Trainmen.

All members of the "big four" railroad brotherhoods throughout the United States will take a tentative "strike vote" on July 1. It was announced, on whether to accept or reject wage reductions announced June 1 by the United States Railroad Labor Board.

The strike ballot circulated among the Pullman Company's shop forces in more than eighty cities, which were to have been voted and returned Friday morning, today was recalled, following a conference with the Railway Employees' Department of the American Federation of Labor.

Crazed Woman Cows Workers in Hotel

SAN FRANCISCO, June 8.—Consternation was caused in the kitchen of the Hotel Dorchester, Sutter and Gough streets, shortly after 5 o'clock this morning when a woman slipped silently through the door clad only in a wrapper, and, seizing a carving knife in one hand and a pointed sharpener in the other, began yelling at the top of her voice. As she advanced, the dishwashers, pantryman and waiters fled. All took refuge together in a corner until it was realized that the visitor was mentally unbalanced.

When one of the hotel's telephone was summoned and the woman conveyed to the Detention hospital for examination as to her sanity. She said she remembered Mrs. Sheehan, but the authorities could get nothing further from her.

Pass Key, Burglars Rob Two Residences

Mrs. M. C. Campbell, 575 Vernon street, reported to the police that her home was entered by burglars last night and clothing and jewelry valued at \$250 were stolen. The burglars used a pass key in order to get into the house. Besides the clothing a gold watch and \$10 in currency were taken.

Mrs. M. Miller, 1149 Telegraph avenue, had one of her rooms entered and a suit of clothes taken. The place was entered by a pass key.

Jury in Damage Suit Cannot Agree

After being out seven hours, a jury in Judge Joseph Koford's court last night reported that it was unable to reach a verdict in the damage suit of Orison Van Horn against the Standard Oil company and C. B. Hollar, truck driver for the company. Judge Koford discharged the jury after the foreman reported that it was hopeless to make another effort to come to an agreement.

Van Horn maintained that he was run down by a Standard Oil company truck on January 30, 1919, suffering permanent injuries.

Man Is Burned To Death in Acid Pit

MARTINEZ, June 8.—Jose Ramon, aged 20, died at the county hospital today as the result of burns received when he fell into an acid pit at the Shell plant where he was employed. With the exception of his face, the entire surface of his body was burned by the acid. This is the second death that has occurred in this manner at the plant. An inquest will be made Monday night.

School Boys' Band To Raise School Fund

The Lockwood schoolboys' band will appear at the T. & D. Theater for two concerts on June 11. All the receipts for that day will be taken over by the boys to help supply equipment for a coming tour that they are planning.

Two Lectures 7:30---Scientific Living
Each Evening 8:30---Applied Psychology

for Three Weeks

SUNDAYS: LECTURES AT 11 A. M. AND 8 P. M.

Scientific living—embracing breathing, sleeping, feeding, speaking, thinking, exercising, etc. Astonishingly simple methods of gaining health, strength and energy through the application of tested methods which Dr. Miller teaches in understandable sentences.

Dr. Miller teaches you how to awaken and make practical use of your best mental faculties. How to utilize this hidden inner power to reach your highest goal.

Character Analysis, Vocational Guidance and Eugenics. Dr. Miller has the unique distinction of being the first man in modern times to teach eugenics as a science in a recognized college. His chalk talks and illustrated lectures on how to read character at sight are scientific and fascinating.

It is an easy way to grow. Shows in charts, and gives a wealth of facts in the matter.—MILLER.

JELICOE COULD HAVE WON WAR, GLASSFORD SAYS

Expert, Describing Battle of Jutland, Says British Were Too Cautious.

Had Admiral John Jellicoe, supreme commander of the British grand fleet, desired victory at the famous Battle of Jutland, instead of following his set custom of preserving the fleet at all costs, the great World War would have ended in the latter part of 1916, Commander William Glassford, greatest naval hero of the war, told members of the Oakland Advertising Club at their luncheon at the Hotel Oakland, Commander Glassford described in detail the famous battle on which hinged practically the future policies of the world.

Without question, Commander Glassford declared, Admiral Jellicoe, supported by Admiral Beatty, England's most aggressive naval officer, could have wiped out the German High Fleet, but, imbued with the idea that had been handed down since the beginning of the war to preserve the English Grand Fleet at all costs, he failed to press his advantage and thus permitted the German fleet to retire undefeated.

Despite the fact that it was generally conceded that eradication of the German high fleet meant the collapse of the German armies, then victoriously marching toward the English Channel and the south, Admiral Jellicoe declined an almost open invitation from Admiral Beatty, who had met the German fleet, to participate in a great battle, and by his actions failed to sink the German ships, approximately seventy-five.

More than 125 ships of various types took part in that great naval battle, which lasted for almost a day and a night. The British lost two cruisers within ten minutes' time.

California Heroes Buried With Honors

SACRAMENTO, June 8.—Final tribute was paid two Northern California soldier heroes when Lieutenant E. E. Burton was laid in his final resting place at Wilbur and Ward I. Church was interred at Loyola. Both funerals were the largest ever held in their respective communities.

Burton, who was killed in France, while serving with the American artillery, was laid at rest with members of the Columbian, Orland and Wilbur's posts of the American Legion in attendance as an honor escort. A firing squad fired a salute at the grave.

In Loyola a delegation of the Reno, Nev., chapter of the legion and a bugler attended the rites for Ward I. Church, also an artilleryman. Church died in France when 21 years old, of typhoid. He was a native of Loyola, a graduate of the Santa Cruz high school with the class of 1914.

Wet Referendum Petitions Are Filed

SACRAMENTO, June 8.—The second petition designed to prevent the Wright prohibition enforcement act passed by the last legislature, from going into effect through recourse to the referendum, was filed in the office of Secretary of State Frank C. Selden today. The petition contained 2567 names and was circulated in Alameda county. The first petition to reach Jordan's office came in last week from Tehama county.

Opponents of the Wright measure have until July 28 to complete the filing of petitions.

Legion Helps 2006 to Obtain Positions

LOS ANGELES, June 8.—"I want two men to handle the 2006 job," shouted the secretary of the American Legion Employment Bureau at Los Angeles. A yell and a dozen hands went up.

The bureau, established in February, obtained 2006 jobs for ex-service men in April. It houses from 85 to 100 homeless men every night and feeds nearly that number two meals a day.

ONCE UPON A TIME THERE WERE NO DOCTORS!

The Doctor Who Not Much Needed Until Folks Began to Break Nature's Laws.

Doctors French Prevention Is Better Than Cure.

Ninety per cent of all disease is preventable, so doctors say. Eat simple food, exercise wisely, sleep sufficiently, and what is vitally important—make sure of the daily regular, thorough elimination of body waste, and the chances are nine to one that you will keep well, work efficiently and enjoy life. Bowel elimination of food and tissue waste is all-important. But in case of irregularity, disordered or imperfect action do not make the common mistake of taking laxative, violently acting medicines, with the idea of forcing the bowels to act. Nature believes in mild methods. She goes on best to persuasion.

So in selecting a simple remedy to regulate and assure proper bowel action, you should not use harsh or violently acting remedies, no matter how much they have been claimed for them. You should choose some well-known, time tested, trial proven remedy, that has made its reputation by being used for many years, by all sorts of people, all over the world. Take Beecham's Pills for example. Beecham's is a household word, has been for many generations. Beecham's Pills is a household remedy, has been for over half a century. People not only take Beecham's but recommend Beecham's to their friends. Their use is handed down from father to son or from mother to daughter, from one generation to another. Did you ever hear any complaint or criticism of Beecham's? I bet that a pretty awful endorsement they would get. Druggists are glad to sell Beecham's.

Scientific Problem Is Solved by Sacramentan

SACRAMENTO, June 8.—The second of a series of three problems which has been worrying science for decades was claimed to have been solved here in an announcement by the Rev. Father Patrick J. Foote, S. J., former president of St. Ignace college of San Francisco.

The scientific enigma, which Father Foote believes he has solved is that of tri-secuting an angle by elementary geometry. It follows by a few mouths the announcement of an Eastern engineer that he had succeeded in "squaring the circle." The third problem yet to be solved is that of duplicating a cube twice the size of a given cube.

Discovery of the manner to tri-secute an angle followed eight months of work with a geometrical contrivance invented and patented by a San Francisco Japanese. The Japanese brought his contrivance to Father Foote last fall, asking the Jesuit to define the underlying principles.

"The principle on which this is based is that an arc varies proportionately with its radius," said the Rev. Foote. "On this basis three arcs are drawn with the side of an angle with the radius varying as one to two to three. The solution consists in using the chords of the unit arc to tri-secute by a geometrical artifice the arc of the triple radius."

Further explanation, with lengthy detail of figures, will be made by Father Foote later in scientific magazines.

Father Foote's discovery is said to start a radical revision in textbooks on geometry.

Ants Undermining \$100,000 Structure

WICHITA, Kan., June 8.—Ants, driving upward from the earth through mud tubes, are threatening destruction to the \$100,000 Exchange Building at the Stock Yards here. Oaken lumber shored under the building has been practically consumed, and the ants have driven their way up along pipe lines to the woodwork of the west end of the structure, which they have tunneled as far as the second floor.

CANADA CHURCHES UNITE

TORONTO, June 8.—The Presbyterian General Assembly yesterday decided on union with the Methodist and Congregational churches of Canada by a vote of 410 to 94.

Japanese Barred In N. S. G. W. Parade

SACRAMENTO, June 8.—Sunset Parlor, No. 26, of the Native Sons of the Golden West, has appointed a committee to call on Commissioner Gus Turner and inform him that members will not march in the Fourth of July parade if Orientals are permitted to participate in it.

The action of the lodge follows Turner's announcement that he would resign from the celebration committee and withdraw his endorsement to the city commission for an appropriation if Japanese were included.

In the fifteenth century the term vaudeville was applied to a certain old Norman folk song.

Houseboat Slaying Charged To Woman

SAN RAFAEL, June 8.—A charge of murder was sworn to by Sheriff J. J. Keating against Alice Hammel in connection with the death at Cottage hospital Sunday of Jack Lois, San Francisco plumber.

Suffering from knife wounds, Lois was taken to the hospital from a houseboat at Escalante, where he was said to have been living with the Hammel woman.

In her cell in the county jail here, Alice Hammel said Lois' wounds were self-inflicted. The authorities scout this, however, and on evidence collected by Sheriff Keating, District Attorney Henry Greer drew up the complaint.

neer Woman Dies In Her 92d Year

JODLAND, June 8.—Mrs. Doris Robinson, near centenarian, who fought Indians in crossing plains from her native state of Iowa in the fifties, passed away yesterday at the age of 92. She had been a resident of Yolo county for three-quarters of a century, living on a 500-acre ranch, owned by her husband under a quitclaim. The deceased leaves quite a family of children, grandchildren and great-grandchildren. The children living are all residents of Yolo-Solano county, and are: W. H. Robinson, Frank and Miss Josephine Robinson and Mrs. F. S. Hill. They were with her when she died. Interment will be in Winters near the home place.

BOY "HOBOS" RELEASED.

W. L. Buttle, special officer for the Western Pacific Railroad Company, who arrested four boys last night for trying to beat their way to Reno, told Police Judge Edward J. Tyrrell that men beating their way were so numerous that the firemen cannot put water in the tender. The judge told Buttle that it was not his fault and dismissed the four boys. Their names are Fred Wise, William Ferfurth, Robert Collins and Gordon Howard.

Robinson and Mrs. F. S. Hill. They were with her when she died. Interment will be in Winters near the home place.

Police Prepare For New Tong Outbreak

The Chinatown police squad here and in San Francisco was strengthened today following warnings from Fresno that a serious resumption of tong warfare might be expected. The report from Fresno stated that following the stabbing of a Huey On tong member, three Bing Kongs were shot. One of them, Fong Koo, a wealthy merchant, died immediately. Because of his prominence bitter reprisals are expected. All of the wounded Fresno Chinamen are expected to die, police reported.

What's Happening in the Motor World

by Jim Houlihan

The Oakland branch of the Howard Automobile Company has hung up a high sales record since the price reduction a week ago with the three days of this week setting the pace. In the last seven days of remarkable selling, six new cars were sold Monday, six more on Tuesday and up to noon today four more had been delivered to buyers. The closed this morning for their 1922 models.

Last week, beginning Wednesday, was also a period marked with the greatest activity this firm has known. In San Francisco 100 cars in one week are claimed as the sales total by the San Francisco branch of the Howard Automobile Company.

This is a promising sign and only serves to emphasize the value of newspaper advertising and the fact that the people of the bay district read advertisements and they see that they contain information wherein the public is benefited to the extent of saving money on commodities of standard make and value they loosen up their purse strings and buy.

Telegraphic advices received from Southern California, Oregon, Nevada and all other points covered by the Howard Automobile Company's selling territory indicate the same healthy demand for Buick cars.

"We are not at all surprised at the number of sales recorded since June 1," remarks General Manager R. F. Thompson, when interviewed on the subject. "So confident were we that the motor wise would realize the real worth of the Buick 1922 series at the big cut in price that we increased our orders with the factory and for two weeks kept a constant stream of railroad cars running westward from Flint, Mich., so that we would have a big supply of cars on hand ready to make immediate delivery."

"Judging from our experience during past seasons when there has been a big demand for Buicks, it will be good judgment on the part of all prospective purchasers to order their cars at once while we still are able to make immediate deliveries."

DODGE HAS BIG CUT.

DETROIT, June 8.—Dodge Bros. Motor Car Company today announced a 3000 reduction in the price of its touring car, the price being dropped from \$1285 to \$985. Substantial reductions will be made in all models, but no detailed list is given out.

The above despatch records one of the most drastic price cuts that have yet been made, based on a percentage of reduction. While the local prices had not been definitely calculated this morning by Manager H. W. Beard of the H. O. Harrison Company, it is believed that the net figure in Oakland will mean an even still greater saving than the amount stated above.

About two weeks ago cord tires were added to Dodge equipment without any cost. This action on the part of H. O. Harrison Co. and the Dodge Brothers really meant

a reduction of \$100, so that today's announcement, in reality, constitutes the second cut within the last month. Automobile industries night at the Elks Club will be the feature of the junks to be held there tomorrow night. The committee composed of well known automobile men who are members is headed by Bill Duley of the Moreland branch, assisted by Ernest Peter, Bill Strel, Wayne Corbin and Herbert D. Bell.

There will be various features of entertainment, including moving pictures showing assembly of the Ford car, and several comic movies with the motor car as the chief actor. There will be an automobile comedy skit with Bob Abernathy, Bud Landers, Dr. Clement and others in it.

There will be jazz bands, cornet solos, acts from the leading theaters in Oakland, and many features to entertain the happy Elks. The acts will be borrowed from Pantages, State and Kinema theaters.

Josephine Ench will sing, so will Mrs. Grace Helen Yeast, who will be accompanied by Mrs. Ball.

There is expected to be a large attendance at the meeting and the Elks will have a gala time.

PAIGE PRICES REDUCED. A substantial reduction in the price of Paige motor cars was announced in a wire to Carl Christensen, which he received last night from the Paige Detroit Motor Car Co. in Detroit.

Paige, at its new figures, joins the ranks of the popular priced cars that have been lowered and these figures, which Christensen expects to have ready late today, will enable Paige to be a still stronger competitor in the local automobile retail field.

Christensen, coincident with getting information on the new prices wired the Paige factory to substantially increase the allotment of cars he is to get in the Eastbay counties.

Beginning Monday Christensen expects to have a pretty complete line of all models in his new salesroom at Thirtieth and Broadway.

GOOD YEAR

An editorial of interest to travelers:

"Casual Fares"

Owners of private automobiles and the operators of the rental stage lines are profiting substantially by the prolonged shipping strike, which has tied up most of the steamers between this city and other Pacific coast ports. It is not an uncommon thing these days to see a dozen advertisements in the classified columns of the newspapers seeking passengers for North or South. The driver of a pleasure car taking a trip for business or enjoyment, and with one or more vacant seats at his disposal has no difficulty in obtaining as many passengers as he desires. He charges about half the regular train fares but collects enough in many instances to pay all of his own expenses. Look for the coast of the traveler's points to which the traveler may go at cut rates any day if he but reads the classified columns. Sometimes Fresno will be the destination and not infrequently there is a chance to go to Portland and Seattle. Occasionally a car leaves for a transcontinental trip with New York or Chicago as the eastern objective and there are always persons who are willing to pay for a chance to see the country by motor.

Alleged Swindlers Held On U. S. Charge

Acting as federal revenue officers, three men, who gave their names as Edward Schumacher, E. J. Toeser and A. McFarland, were arrested yesterday on a charge of swindling several residents of Tulare and Fresno counties. The alleged swindlers went about according to the police, selling cheap jewelry

that they claimed had been taken from passengers who had refused to pay the duty tax upon entering the country. William H. Tidwell, special treasury department agent, upon receiving notice of their arrest, sent one of his deputies to investigate the case. E. J. Shannon, who arrested the men, says he found an automobile which belonged to H. H. Patton, 15 Greenbank street. He was arrested in Los Angeles last Monday.

SUSPECT TO BE RETURNED. Police Inspector Lou Agnew left last night for Los Angeles to bring back Carl Morrison, who is wanted in this city for the theft of an automobile. He is alleged to have stolen an automobile which belonged to H. H. Patton, 15 Greenbank street. He was arrested in Los Angeles last Monday.

Home Transformations That You Can Make Yourself With Paint, Varnish or Enamel

LABOR TO FACE HOT CONTEST ON FOREIGN POLICIES

Irish Recognition and International Relations Cause Controversy.

By MILDRED MORRIS, International News Service Staff Correspondent.

DENVER, Colo., June 8.—Omission of any reference to the Irish question in the report of the executive council of the American Federation of Labor and the council's announcement of policies on international relations will lead to sensational charges and bitter strife on the floor of the federation's convention which opens here June 13, labor leaders who have arrived for preliminary meetings predicted today.

Two sets of Irish resolutions may be introduced, it was learned.

One will include attacks on Samuel Gompers and other members of the executive council for failure to report on the resolution adopted by last year's convention, it was predicted.

IRISH RECOGNITION WILL BE DEMAND.

Recognition of the "Irish republic" will be demanded, and the executive council instructed to take whatever action necessary to help bring it about.

Peter Brady, one of the leaders of the Irish sympathizers and prominent in politics in New York City, said today that he anticipated no attacks on Gompers in connection with the Irish question, and forecasted unanimous adoption of whatever resolutions were introduced.

Brady is known as a Gompers supporter.

Many leaders predict that the biggest fight in the convention will follow the executive council's announcement of severance of relations with European labor through withdrawal from the International Federation of Trades Unions on the ground that "reds" dictate the policies of this body and recommendations to organized labor to go on record against opening of trade relations with the soviet government.

CHARGES IMPLY LEAGUE WITH BOLSHIEVISTS.

According to advocates of trade with Russia the report of the council implies charges that Timothy Healy, one of the railroad union executives and head of the labor alliance working for recognition of Russia, William H. Johnston, president of the International Association of Machinists, now in Russia, and other prominent leaders are in league with the Bolshievs.

Matthew Woll, eighth vice-president of the federation, declared that the issue of the domestic question to come before the convention will be the "open shop" movement and the widespread campaign to reduce wages.

"As for international relations," said Woll, "the federation at its Atlantic City convention and the Montreal convention last year made clear expression of its stand on the Irish question and the executive council saw no reason why it should reaffirm this again this year."

"Whether there should be real reaffirmation of labor's support to Ireland is an important domestic question to come before the convention. There has never been opposition from any quarter to the Irish resolutions and I see no reason why there should be any fight this year."

WILL NOT ACT ON BUILDING TRADES.

The building trades department of the federation will order no "clean-up" of the situations in that craft in Chicago and New York, according to William J. Hutchinson, head of the United Brotherhood of Carpenters, and presiding at the annual meeting of the department here in the absence of John H. Donlin, Hutchinson said.

"This department will take no action in the Brindell case in New York, or charges against officials of the building trades council in Chicago. They are matters for the respective local organizations and this department has no power to act."

Thugs Are Routed By Two S. F. Women

SAN FRANCISCO, June 8.—Attacked by two thugs in their room at the Hotel Ilmo, 1024 Bush street, early today, Mrs. Mary Merrick, manager of the hotel, and her daughter Maxie succeeded in fighting off their assailants and saving a large amount of money and jewelry.

The Merricks had retired when a short time after midnight there was a knock on the door. Miss Maxie Merrick responded and opening the door was seized by a man whom she could not see. As he pushed her back into the dark interior she was struck with a blackjack. She screamed to her mother who was still in bed, but the latter was receiving similar treatment from a second bandit who had made his way in and seized hold upon her. Both women screamed and tore at their attackers and after a fight succeeded in escaping and running into the hallway. The men then fled through the door and to the street.

SHIP'S GUARDS BEATEN.

PORTLAND, Ore., June 8.—John Kline, special deputy doing guard duty on the steamer Eastern Mariner, was set upon and beaten by four men yesterday, according to reports to the police. Kline, whose jaw was broken, was taken to a hospital. Effort will be made to identify and arrest the attackers, officials of the shipping board announced.

DECIDES ON BEST LIFE INSURANCE

"Five years ago I was refused life insurance because of heart symptoms. Doctors said it was caused from a pressure of gas that came from my stomach, but their medicine did not help me, and I was getting worse all the time. Three years ago my druggist recommended May's Wonderful Remedy. I took a course of it and believe it is the best life insurance anyone can buy. It helped my trouble at once. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments including appendicitis. One dose will convince or money refunded. Druggists everywhere. Advertisement."

BRITISH TROOPS CONTINUE DRIVE THROUGH SILESIA

Aid of German Volunteers in Clash With Poles Is Refused By Allies.

BERLIN, June 8.—The British military "offensive" to clean up Silesia is in full swing today. Italian troops are assisting the British.

General Hanneker, the British commander, planned a British forward movement in fan-like formation from Gross Strehlitz, occupying Beuthen, Koenigsnuette and Kattowitz.

The German volunteers took no part in the movement. General Hofer, commander of the Germans, had offered their services, but it was decided that the volunteers should remain in their reserve positions under British orders.

A night attack was made against the Germans holding advanced positions near Kattowitz. The Germans sent out a patrol, thinking they had been attacked by the Poles. After a fight in the darkness the Germans returned with fourteen prisoners and two wounded men. All were French. The prisoners were released at once and General Hofer apologized to the French commander.

OPPELN, Silesia, June 8 (By the Associated Press).—Rosenberg, 20 miles northeast of this city, near the old Polish frontier, has been occupied by a battalion of British troops. Rosenberg was taken by Polish insurgents during their first advance in Upper Silesia and there has been fighting of serious fighting there between the Poles and Germans.

Murray Will Contest May Be Settled

SAN FRANCISCO, June 8.—Time for filing a contest of the will of James A. Murray, millionaire mining man, will expire at 5 o'clock tonight. Up to early today, no contest had been filed and it was rumored that a determined effort to settle the case out of court was in progress.

Conferences between relatives of Murray and his widow's representatives, it is understood, were to be held during the day.

Any contest will be filed in the Superior Court of Monterey county. The necessary papers have been prepared, ready for filing, according to attorneys.

Murray, at the time of his death at Monterey, had an estate valued at \$15,000,000. The bulk of the estate was left to the widow and to Stuart Holdorn.

Religious Organizations Will Picnic in Canyon

Religious organizations of Oakland, Berkeley and San Francisco, with nearly 1000 members in attendance, will hold picnics in Redwood canyon on the lines of the San Francisco & Sacramento railroad next Saturday. Arrangements have been made for special trains to carry the picnicers to their destinations. These trains will leave the Fourth street and Shafter avenue depot of the company at 10:10 a. m. after having made connections with the Key Route ferryboat leaving San Francisco at 9:40 o'clock. The return will be made on trains leaving the canyon at 4:30 p. m.

Religious bodies to enjoy the day in the canyon are the First Presbyterian church of Oakland, which will picnic at Madrone park with 200 members in attendance; the First Presbyterian church of Berkeley, which has reserved Canyon station park for the 250 members who will attend; and St. Dominic's church of San Francisco, which will picnic at Pinchurst with nearly 400 members in the party.

On Sunday there will be two more picnics in the canyon. The San Francisco Parlor of Native Sons will hold their annual outing at Pinchurst with 700 members and their friends, and Golden West Lodge, F.

Tongman Identified In Court As Slay

SAN FRANCISCO, June 8.—Jung Kai, a member of the Suey Dong tong, was charged today with the murder of Suey Tip, who was slain May 25 at home, 1117 Pierce street, while wife and friend, looked on, helped to aid him. She was a member of the Jung Yung tong. Four men, alleged Suey Dong highlanders, are up in an automobile and two of them shot him to death. His wife Chung Song today identified Jung Kai, who was in court on a charge of conspiracy to commit murder, was immediately charged with killing. At the same time Detective Frank McGraham procured warrants for the arrest of two of the Chinese for complicity in the crime. They are Yip Sin and Lee Chung.

EX-PELICAN SHOT.

PORTLAND, Ore., June 8.—The police today are investigating the wounding of "Mysterious" Billy Smith, soft drink establishment proprietor here, and one-time welterweight champion of the world. He is 40 years old. The shooting took place last night in a local cafe and was the result of a supposed brawl. Two men are held pending completion of the investigation. Smith is being treated for a severe bullet wound in his right arm.

WEDNESDAY, JUNE 8.

The statue of King George was destroyed in New York on June 8, 1776, following the news that the Declaration of Independence had been signed. One year later on the same date, Major-General Prescott of the British army was captured. President Fillmore was inaugurated in 1850 and Wyoming was admitted to the Union on this day in 1890.

HAS IT COME TO THIS?

I speak thee soft, John Barleycorn,
And bid thee drink thy fill,
For a man's house is his brewery,
His castle and his still.

Wayne B. Wheeler has an article on "The Rum Rebellion" in this month's Edition. Those looking for an excuse not to read it may seize upon the split infinitive in the first sentence.

"What is radium?" is another of those Edison questions. Might as well say that it is the topic of Cancer?

"Is the Times for sale?" was asked of Lord Northcliffe, according to a despatch from London.

"It is all rot," was the answer.

That being the case, it is doubtful if there will be any offers.

FROM THE SEAT OF WAR

(Special to the Almanac.)

MANHASSET, June 8.—"Mr. Carpenter," we began and he replied, "Car-pon-tee-aye," which must mean good-morning in French.

"What we really wish to know," we continued, "for we had come a long way for this interview and had a nifty question all ready, 'is just what tactics do you intend to use when you fight Dempsey?'"

Carpenter looked at us for a minute and then spoke to Dempsey.

"I have a barbed wire around the camp, yet," he inquired.

"The man we thought," he speaking in symbols so these low-brow reporters won't get his drift. I must not miss a syllable." Then Dempsey nodded and Carpenter blew a whistle.

When we picked ourself up outside the enclosure the secret was ours. The whistle sounded just like the neon blast at the shipyard of Rita Brown.

Dempey throws down his glove and will punch him in the jaw. This is exclusive.

LET'S BE BRAVE

Let's be brave when the laughter dies
And the tears come into our troubled eyes,
Let's cling to the faith and the old belief
When the skies grow gray with the clouds of grief,
Let's bear the sorrow and hurt and pain
And wait till the laughter comes again.

Let's be brave when the trials come
And our hearts are sad and our lips are dumb,
Let's strengthen ourselves in the times of test
By whispering softly that God knows best,
Let us still believe, though we cannot know,
We shall learn sometime it is better so.

Let's be brave when the joy departs
Till peace shall come to our troubled hearts,
For the tears must fall and the rain come down
And each brow be pressed to the thorny crown;
Yet after the dark shall the sun arise,
So let's be brave when the laughter dies.

HOUSEHOLD HINTS

A GOOD MODELING MATERIAL.

It is often very difficult to keep a child confined to the house when the weather is so fine.

Take four tablespoons cornstarch, eight tablespoons salt, and eight tablespoons boiling water. Mix the dry ingredients and pour on the boiling water, stirring until the mixture is soft.

Put on the fire and stir until it forms a soft ball, then remove from the stove and stir for ten minutes. A little color may be added.

Wrap in oiled paper when not in use to keep from hardening.

MRS. N. P. WILSON.

EVERY mother of small children should save this simple recipe. It is very good. It makes about a teaspoonful of modeling material.—Editor.

RUNNING RODS THROUGH CURTAINS.

When running rods through lace curtains you can prevent them from catching and tearing curtains by placing an old glove finger on the end of the rod before running through curtain.

MRS. J. CHRISTENSEN.

MAKING BABY'S BONNET.

In making baby bonnets do not attach the strings to the bonnet, but instead make buttonholes at the ends to be attached, then sew a small flat button on each side of the cap underneath, where it won't be seen. Thus when the "strings" become soiled they can be easily removed and laundered, making it unnecessary to wash the entire cap.

MRS. LILLIAN DUFFEE.

CENTERPIECE HINT.

To make a heavy embroidered round or oval centerpiece, wash and starch quite stiff. While wet divide into fourths or eighths, place paper on rug and pin to floor, as you would stretch curtains on a stretcher.

Cold boiled rice left from a meal can be utilized by using a beaten egg and milk, then formed in cakes and fried. Very nice for tea.

The Curiously Funny Reply Wellington Gave an Artist

The "Iron Duke"—Arthur Welles-

ley Duke of Wellington—was the

hero of England during his lifetime.

The defeat of Napoleon at Waterloo

raised him, in the imagination of

many an Englishman, to unexampled

heights. But through all the adula-

tion which came to him, Wellington

contrived to keep his sane viewpoint.

The following incident illustrates

both these facts:

When Wellington was no longer

young he was residing one evening

opposite Apsley House in Piccadilly.

The street was crowded with cabs

and other vehicles passing in both

directions in bewildering numbers.

The duke was hesitating on the curb-

stone when a gentleman nearly as

old as he made some demonstration

of assisting the duke to cross the

street.

When the duke reached the gate

of Apsley House he touched his hat

and said:

"I thank you, sir."

The elderly gentleman, we are told

by the Athenaeum, was seated, hold-

ing his hat at his knee, and eagerly

said:

"My lord, I have passed a long and

not uneventful life, but never did

hope to reach the day when I might

be of the slightest assistance to the

greatest man that ever lived."

The duke looked at him calmly,

and in a voice not the least choked

by emotion, replied:

"Don't be a cursed fool!"

Then he turned on his heel and

marched into Apsley House.

CHAPTER IV

Nell frowned and set her

teeth. The thing was growing

monotonous.

"Nell," began Burgess, again.

"Yes, yes, go on!"

It was the first time Nell had

spoken since this hair-raising

even began.

But Burgess was again

stricken dumb. He surveyed the

threatening June sky. Cleared his

throat. Looked down at his

throat. Cleared his

throat. Spat into a rose bush.

Cleared—

Nell's eyes narrowed, but be-

fore she could strike him and

go back to the hunking of ovens,

but she had left in the oven,

just before the first chapter

was started, Burgess spoke:

"Nell," he said.

(To be continued.)

One reason for the drop in

the price of oil is that the fruit

sections this season are smudg-

ing with five-cent cigars.

ATTORNEY ASKS CLIENT'S ARREST

A bench warrant was issued this morning for George B. Thompson by Police Judge Edward J. Tyrrell at the request of his attorney, T. J.

Christian Thompson was charged with obtaining money under false pretense and his bail of \$200 was forfeited when he did not appear in court for his preliminary hearing. He was arrested several days ago on a warrant sworn to by Samuel Roach, 6500 East Fourteenth street. According to the police, Roach loaned him \$10 and as security he was given several pieces of jewelry supposed to be worth several hundred dollars. It developed that the jewelry is worth only a few dollars.

Southard Accused of

FRANCISCO, June 8.—In-

of Sheriff V. H. Ormsby to

to his superiors was today
possible for the delay in the re-
to Twin Falls, Idaho, of Mrs.
Eva Southard, alleged "Mrs.

a wife to face trial on a charge
rdering four husbands and her
two-year-old child.

Ormsby said today that he was
to give any definite date for
this trial, but hoped to get

Southard will be taken back to

she spent the night.

For the first time since her

Fair Prisoner's Journey Half Done

Firm in her determination not to be photographed, and shielding her face from the prying eyes of a battery of cameras, MRS. LYDIA EVA SOUTHARD, alleged "Mrs. Bluebeard," walked down the gangplank of the steamer Matsonia yesterday. She is shown in the above picture with DEPUTY SHERIFF ORMSBY, shielding her face from the cameramen just as she was about to step on United States soil.

Mrs. Southard Goes Shopping And Attends Theater in S. F.

My MRS. LYDIA SOUTHARD.
(Written Exclusively for the United Press.)

SAN FRANCISCO, June 8.—I do not want to discuss the case, but I do want to take this opportunity to tell how nice and kind Mr. Ormsby and Mrs. Ormsby have been to me. Everything has been perfectly lovely and ever since we started they have done everything to make me as comfortable as possible and to lessen the ordeal.

If it was necessary to bring me back at all, I am certainly grateful to do so. I also enjoyed the kindness of the cameramen and reporters who rushed down on me and began hounding every conceivable question to me about the case and trying to photograph me which ever way I turned.

I could not talk about the accusations made against me, of course. My lawyer told me that the place for me to spend the night in jail, as they might have, but brought me here instead, where I could get a good night's rest. The jail was very crowded and I was worn out and nervous after yesterday's ordeal.

The theater last night was a great relaxation and it was very kind of the Ormsbys to take me, for they were not at all under any obligation to do so. I also enjoyed the little shopping tour with Mrs. Ormsby in Chinatown. She had promised her young daughter a kimono and we shopped through the various stores until she found what she wanted.

I shall be very glad to get to Twin Falls and wish to be tried as soon as possible.

Mr. Southard received orders to come back from Honolulu just as we were sailing. He is aboard the navy collier Jason, which left a few days after we did, and which, I understand, is expected here on Sunday. He will go at once to San Pedro, where he has applied for a furlough which we feel sure will be granted.

He knows I am innocent and it will be a great comfort to have him by my side during the trial.

TICKET SALE FOR PAGEANT LARGE
Dancing will follow the presentation of the melodramatic pageant, "California," at the Oakland Municipal Auditorium Tuesday evening, according to an announcement made this morning by members of Oakland Chapter, American War Mothers, who are in charge of the production.

Funds raised through the pageant will be used for aiding wounded veterans in Letterman general hospital, the government hospital in Palo Alto and the private hospitals of Oakland.

Advanced sales of tickets, according to committee members, have been unusually large, and a large delegation of pretty girl workers are today touring the downtown business district on the first leg of a five-day "drive" to dispose of every seat in the Auditorium.

Tickets are also on sale at the headquarters of the pageant committee in the Hotel Oakland and at Shorman & Clay's in Oakland.

NATIONAL LEADER TALKS TO WOMEN AT S. F. MEETING

Mrs. T. W. Winter Pleads For Clear Thinking in Address To 850 At Hotel.

SAN FRANCISCO, June 8.—When 850 feminists of California assembled yesterday at Hotel Fairmont to greet Mrs. Thomas W. Winter, they listened to some plain talking from the president of the General Federation of Women's Clubs, the acknowledged leader of 2,000,000 of the United States of America. Dr. Mariana Bertola, retiring president of San Francisco district, C. P. C. W., presided as hostess. Mrs. A. A. Fitzgerald, president of the California Federation of Women's Clubs, extended the greetings of 50,000 members to Mrs. Winter.

Judge McKee, on behalf of Mayor Ralph; President Lynch of the Chamber of Commerce; Dr. Aurelia Henry Reinhardt, representing the educational interests; Mrs. L. Lowenberg, spokeswoman for the Federation of America; Mrs. Rosa V. S. Berry, representative of the art colony; and Mrs. W. S. Bryant of Los Angeles, representing the clubwomen of the South, welcomed Mrs. Winter, who en route to Salt Lake City to preside over the biennial council of the General Federation of Women's Clubs.

ONLY OFFICIAL VISIT.
San Francisco was chosen by the feminine leader for her only official visit on the Pacific coast. A half hundred clubwomen from Alameda county were in attendance at the luncheon.

"I am not afraid of the elements that would tear down America," Mrs. Winter told the women who greeted her, "but I am terribly afraid of the sluggishness and contentment of the American people. Excluding that one small group that cannot be assimilated, the elements of the alien who come to our shores are American in heart. They find our failures because we are satisfied and do not know what are the housing, the living, the industrial, the judicial conditions that meet them. If we lived America instead of talking Americanization, there would be no question of Americanism."

No language but the English should be the basis of instruction," the general federation president declared. "Of all alien tongues the language of snobbery is the worst."

WANTS CLEAR THINKERS.
"There is no room in America for the man or woman who is not willing to give as much as they get."

Mrs. Winter declared herself heartily in favor of any legislation which would be for the real benefit of the ex-service man, opposed vigorously the proposal that a welfare department be created, and the combined interests of the veteran and the educational interests in America should be created as a substitute for the proposed department of education.

"When all the world seems jaded," the distinguished visitor commented, "there is need for a group that thinks clearly and serenely."

He would make his vocation of the General Federation.

San Francisco News

SAN FRANCISCO, June 8.—Members of the Public School Defense Association state that they expect to meet in the near future, proof of politics in the affairs of the Board of Education, following charges made at yesterday's meeting, to the effect that politics wield a dominating influence in the affairs of the board. H. D. Sayville, president, and Dr. C. F. Griffin, secretary of the defense association, headed the delegation which presented the charges.

Advanced sales of tickets, according to committee members, have been unusually large, and a large delegation of pretty girl workers are today touring the downtown business district on the first leg of a five-day "drive" to dispose of every seat in the Auditorium.

Tickets are also on sale at the headquarters of the pageant committee in the Hotel Oakland and at Shorman & Clay's in Oakland.

A. Frankie, director and composer, has been secured to conduct the twenty-five-piece band which will furnish the music for the pageant and dance.

Delegations of principals in the cast of the production are this week making a tour of the luncheons of all of the Eastbay business and civic clubs, putting on short entertainments to arouse additional interest in the affair. The shipyards are also being visited by this entertainment troupe.

Meteoritic Rain On June 27 Predicted

CAMBRIDGE, Mass., June 8.—Winnecke's comet will probably not come within 10,000,000 miles of the earth, according to information received at the Harvard College observatory, from astronomers studying its motion closely. The comet will make its nearest approach to the sun on June 13. Several astronomers predict a meteoric shower on June 27 as a result of the comet's approach.

A search is being made in this state for "Mike," an arctide dog belonging to Arthur C. Olsen, a police officer, who has been the point of death at Tucson, Ariz. They were both wounded in France. They became separated after Olsen went to Tucson. Doctors say if Olsen finds his dog again he will probably live.

William John Johnson is under indictment for the murder of Anna, his case having been presented to the grand jury yesterday. It was based on charges by Anna Gassett, who left New York with him last December. She says he told her he could not get a marriage license because he was doing governmental secret service work and dared not reveal his identity. Later, she says, she found he was a baker.

WEEKS ADVISES U. S. BE LAST TO RELINQUISH ARMS

Sees Warning in Feverish Military Activity of Other Nations.

BY ASSOCIATED PRESS. LEAD WIRE TO TRIBUNE.

NEW YORK, June 8.—Declaring it his opinion that it would be the height of folly for the United States to disarm first, Secretary of War Weeks, in an address today to the graduating class of New York University, said he hoped to see this country prepared to defend its rights its sovereignty and its citizens until the day comes when all nations by mutual consent, dismantle their fortifications and scrap their navies. The university conferred upon Secretary Weeks the honorary degree of Doctor of Laws.

"I do not love war," the secretary declared, "but I do not anticipate war, but there are active and feverish military preparations among those with whom we might possibly come in contact. And I want to say here and now that I cannot give a moment's serious consideration to the possibility of war with Great Britain, France, Italy, or such a conflict, he declared, would, in his opinion, be the end of civilization.

Weeks declared the time had come when this country must have a definite military policy. The National Defense Act, which became a law on June 4, 1920, is the policy which he thought should govern the army.

"In many cases, in some parts of the world," he continued, "there are developing large masses of population requiring expansion of territory. The future can only add to the requirements of nations for increased territory and there can be no assurance, notwithstanding our own disinterestedness and desire for peace, that our wealth would be craved by others less fortunate."

"It has not lessened the wisdom of Washington's advice in time of peace prepare for war." It is as essential in the preservation of the republic in 1921 as it was 1780."

N. Y. Engineer To Study Bay Bridge Plan

J. Vipond Davies, New York bridge and tunnel engineer, is to come to the bay district at the invitation of the Motor Car Dealers Association of San Francisco to make a study of the various plans which have been submitted for the proposed bridge across the bay.

This announcement came as today's development in the move for bridging the bay, which was started last week by the association and which has been commanding the attention of the San Francisco supervisors, the Berkeley city council as well as a number of of civic and improvement committees.

First public discussion of the various plans of construction and financing of such a bridge since the present movement was started had today at the Hotel St. Francis, where "Bridge Day" luncheon of the Downtown Association, Harry R. Lamster of the Motor Car Dealers Association, was the speaker.

S. F. COMMITTEE NAMED.
Following the adoption by the San Francisco supervisors Monday evening of a resolution presented by Supervisor Richard J. Welch calling for a conference of representatives of committees from Alameda, San Francisco and San Mateo counties, Mayor Rolph today announced the committee that will represent San Francisco.

Supervisor Welch is named as chairman and the following as members: Edward L. Wolfe, Col. James E. Power, Ralph McKee and Charles A. Nelson.

On Davies' arrival here he will make a complete survey of the bridge situation in San Francisco and present a report on what location, style of bridge and terminal construction would be most feasible. His report will be prepared for the Motor Car Dealers Association.

DAVIES' EXPERIENCE.
Davies is a consulting engineer of the New York State Bridge and Tunnel Commission. He was in charge of the construction of the Hudson River and Manhattan Railroad tunnels, the Astoria tunnel under the East river and the Ravenswood tunnel from New York to Long Island.

Gustav Lindelthal, another New York engineer at present engaged in directing construction of the great Hudson River bridge at New York and who plans for bringing the bay provide for a bascule-type bridge to span the waters from Hunters' Point to a point in Alameda south of the proposed Pacific naval base site, has offered to come to the bay to participate in the survey and report of bridge possibilities here. This was announced today by J. Rich, San Francisco promoter, who first made announcement last week that a syndicate of California capitalists whom he represents are making arrangements for financing a bridge to be constructed according to Lindelthal's plans.

Scarpitta's Likeness of President of U. C. Is Sent East for Exhibition

BERKELEY, June 8.—Leading art critics of the country have praised in praise of the bust of Dr. David P. Barrows, president of the University of California, which has just been completed by Signor Cartaino Scarpitta, sculptor of international reputation.

Traveling from New York, where he maintains a studio, Signor Scarpitta came west to model likenesses of a trio of well known Californians. In addition to Dr. Barrows he has done busts of Dr. David Starr Jordan of Stanford University and W. H. Hays of San Diego.

The head of President Barrows, which his friends characterize as a remarkable likeness, was modeled in clay in the drawing building on the University campus. It has since been cast in plaster and sent to New York for exhibition.

Signor Scarpitta is a young Latin-American sculptor whose work has been honored in the salon at Paris and the New York, Pennsylvania and Milwaukee academies. His "Healing Touch," modeled for the Cuban Red Cross, won for him a decoration from the Cuban government. His busts of Tolstoy and Roehmannoff, J. Pierpont Morgan, Robert F. Huntington, former Secretary of War Newton D. Baker, and Mrs. Caleb Johnson, while showing remarkable differences in type, have won him no small distinction in sculptural portraiture.

to be appointed by the governor. Three hundred and twenty acres of land are set aside by the measure and the commissioners are empowered to purchase more land not to exceed 4000 acres. The commission is charged to conserve water resources and animal life. Senator Sharkey has been promised by the State Fish and Game Commission that a herd of deer will be released on the mountain.

History surrounding Mt. Diablo, the fact that it is used as a meridian for all California surveys, that a view may be obtained from its summit greater in extent of area than may be seen from any other peak in the United States, and rich, scenic fruit and agricultural land surrounding it are cited by park advocates as proof that the mountain is destined to become one of the famous landmarks of the West.

Comprehensive plans for the celebration are being worked out by the committee. Among the speakers will be Governor Stephens, Lieutenant Governor Young, President Barrows, Senator J. Knowland, Senator Joseph R. Hoxby, James P. Hoxby and Judge Fletcher Cutler of Eureka.

Requests that chambers of commerce and Native Sons and Native Daughters lodges of the county join in the celebration met with a spontaneous response today. Among organizations which will have an active part in promoting the celebration will be Danville Grange, the members of which have been ardent advocates of the Diablo park for years. Other organizations urged to participate are the Oakland Chamber of Commerce, the Contra Costa Hills Club. The whole celebration will hinge around a basket luncheon and picnic. The Martinez concert band will play and motion pictures of the outing and other features have been taken under advisement by the committee.

Because of the mountain's proximity to Oakland and its accessibility to automobile parties a huge throng is expected at the celebration. Under the terms of the bill a park commission of five members

Mrs. Bertha Bruan, aged 56, is recovering from gas application, for which she was treated at the Central Emergency hospital yesterday. She was found unconscious in her room at 139 Fulton street.

It is estimated that damage to the extent of \$7000 was done yesterday by a fire which started at 1129 Broadway street. There were about 20 persons in the building when the fire broke out. One woman had a severe scalp wound from death.

AFRICA IMPORTER BRINGS FAMILY TO LIVE IN EASTBAY

M. W. London Says He Heard of Industrial Growth Here in Far-Off Nairobi.

M. W. London, wholesale produce dealer and exporter of Nairobi, East Africa, and a share owner in the East African Standard, the leading newspaper of that city, arrived in Oakland today to make arrangements for the residence here of his family until he can purchase a home in the Eastbay cities.

Even in far off Nairobi, London says, he heard a great many fragmentary reports concerning an industrial and business boom on the continental side of San Francisco bay and so resolved to come and investigate for himself. He has brought Mrs. London and their four children with him, they are staying at Boyes Springs while London has come to Oakland to make arrangements for a permanent home here.

During his stay here he is at the Hotel Oakland.

"I am a native and a resident of Baltimore," London said today, "but have lived for twenty-nine years in the various British colonies in Africa and still have extensive business interests in East Africa. But I longed to return to the States, and even in Africa so many people have told me about California and especially about the mainland side of San Francisco bay, I decided to come here and take up my residence."

"Nairobi has a European population of about 3000 but the school facilities there are not as good as I would like to provide for my children. If I settle in Oakland or Berkeley I may engage in the business of exporting and importing from these cities to the African colonies or may leave my family here and return to Africa part of each year to look after my interests there."

London brings with him a copy of the East African Standard of April 30 which carried a column account of some of the thrilling adventures through which the H. A. Snow, African museum expedite from Oakland, has passed in search for materials for the Oakland public museum.

Bondsmen Sued For \$2000 Claiborne Bail
Suit to collect a \$2000 bond which was given for the appearance of William R. Claiborne, alleged burglar, who, when his case was called in the Oakland police court for preliminary hearing, failed to appear, has been started by District Attorney Ezra Deegan against J. N. Jacobson and J. M. Claiborne, the bondsmen, who refused to pay the \$2000 when notified of the alleged burglar's disappearance.

Claiborne was arrested on March 18 on a charge of robbing the home of R. Whitcomb in Oakland, and is now in the county jail. Surrounding it are cited by park advocates as proof that the mountain is destined to become one of the famous landmarks of the West.

GRAND JURY TO GET FIGURES ON MATERIAL COSTS

Comparison of Today With 1915 Will Be Considered in Building Quiz.

When Alameda county's building trades tie-up is taken before the grand jury for another airing tomorrow, along with the charges that building material men have refused to make sales in Alameda county, District Attorney Ezra Decoto has announced that he will seek information as to the reason for the advances in building costs. The grand jury is to be presented with these figures when it convenes tomorrow.

District Attorney Ezra Decoto has in his possession information concerning the cost of building material in the county as compared with 1915. Information that would show increases from 60 per cent to three and four hundred per cent, and he has similar statistics which would show that the cost of labor in the building trades has increased from 60 to 100 per cent.

PROFIT-SEEKING HINTED.

In the probe as to prices charged for materials as well as that which is seeking to determine whose fault it is that no supplies are delivered in the county, the evidence is expected to include the manufacturers and manufacturers' agents. Testimony to the effect that supply houses have refused shipment here will be introduced and additional evidence that certain manufacturers notably that of cement, have raised prices and have recently declared 100 per cent dividends, is said to be in the hands of the district attorney. A sudden boost in the price of laths from \$9 to \$12, it is said, will also be given a careful scrutiny.

There are some of the prices of building materials today and four years ago:

Article	1915	1921	Per Cent
Lumber	\$12.50	\$12.00	100
Plank	1.00	3.40	340
Shingles	2.00	10.00	500
Roofing	1.00	12.00	1200
Boards	1.00	1.50	150
Block	1.00	2.00	200
Plank (12 in.)	1.00	1.25	125
Plank (14 in.)	1.00	1.50	150
Com. brick (1000)	10.00	25.00	250
Cement, Portland	2.00	4.00	200
Lathing (1/2 in.)	1.00	2.00	200
Steel structural	2.00	10.00	500
Pres. brick (1000)	40.00	75.00	187
Chicken lath wire	.42	.52	124
Sheet iron	1.00	1.50	150
Heating and plumbing 100 per cent increase			100
Electric wiring	10.00	75.00	750
Electric wiring 50 per cent increase			50

EXCESSIVE PRICES.

The increase in laths, lumber and cement, many builders declare, has been disproportionate in this community and certain contractors report that, in the matter of rock and gravel, they have been able to haul supplies bought north of Sacramento to Alameda for a lower cost than the dealers here could sell.

On the other side of the building cost bill is the increase given to the laborers. It is pointed out that for the last four years the wage of a plasterer was \$7 and that it is now \$11; the wage of a carpenter was \$4.50 and it is now \$9, and the other crafts were in proportion. In addition, it is pointed out that many of the workers are not required and the expenses do not mount so high.

WANT BURDEN DIVIDED.

Maury J. Diggs, chairman of the Merchants' Exchange committee, which has been seeking to bring about an understanding that will mean an end to the tie-up which has been halting the unprecedented expansion of the city, said today that he was convinced that if there had been any overtures toward a settlement in which a division of the burden of the reduction had been suggested, that an agreement would have been reached.

"The plan seemed to be to make the building crafts stand it all," said Diggs. "I look at the whole matter from the view of the building owner. He is the one who has to pay and he, and not the contractor or the builder, or the union man, is the most injured. The plan appeared to be a chance to reach an understanding here and the Builders' Exchange would not listen."

Local supply houses admit the rise in the cost of building materials, but say that there are definite reasons for the same. They point to the wholesale costs and many maintain that their profits are below ten per cent on many of the most widely sold articles.

If District Attorney Ezra Decoto goes through with the investigation into the prices there will be summoned witnesses from many sections and a repetition here of a grand jury investigation which has developed important evidence in New York may be expected.

The grand jury will meet tomorrow at 10 o'clock. Decoto will not say whether or not he expects any indictments.

Woman To Speak At Irish Meeting

Under the auspices of the American Association for the Recognition of the Irish Republic, a mass meeting will be held in Sacred Heart hall tomorrow evening. Miss Anna Walsh, sister-in-law of Thomas McCurtain, late lord-mayor of Cork, will address the meeting.

OFFICERS ELECTED.

Durant Parent-Teacher Association concluded its year's work yesterday with a "chicken" dinner, celebrated by 27 local teachers. Mrs. M. Walsh succeeds Mrs. J. A. Mullen as president. The newly elected officers are: Vice-president, Mrs. A. J. Covilland; recording secretary, Mrs. J. B. Meroux; corresponding secretary, Mrs. M. H. Hirsch; treasurer, Mrs. M. D. Diehl; historian, Mrs. M. J. Billie; auditor, H. J. Keane. Mrs. Mullen was presented by the club with a silver plate.

How Building Costs Have Climbed in 4 Years

Photograph shows the advances made in prices for building materials and supplies in the last four years. Whitewash That "Will Not Rub Off" Is Tribune Problem

That legislative whitewash is not the only kind that is claiming public attention is evidenced by a query received by THE TRIBUNE Information Bureau editor today from a reader in Byron, Cal. Here is the question:

"What would be the best to mix in whitewash, that would not rub off, but would make a good white?"

WHITEWASH.

Lime, clean and well burnt, 6 qt.; Spanish whiting, or powdered burnt lime, 4 oz.; white sugar, 15 oz.; rice, 3 pt.; glue, good quality, 16 oz.; water, boiling, 5 gal. Slake lime in vessel about 10 gallons capacity, with hot water, keeping vessel covered to retain the steam and pass through a sieve to clear of coarse particles.

THE TRIBUNE'S Information Bureau will answer all questions of a general nature except school or legal problems, debates, trade and firm names and queries as to the time of day.

If answers are desired by mail, stamps must be enclosed. Quickest results can be obtained by telephoning to the bureau. If you have any problems, please write to solve. Ask THE TRIBUNE, Information Bureau, Lakeside 6900.

WOMEN'S CLUB GREETED TEACHERS

Letters of welcome to the newly appointed teachers in the Oakland School Department with information as to hotels and restaurants, are being sent out by the Oakland School Women's Club. This act has become an annual custom following the announcement of the new lists.

Miss Joyce Lobner has been elected president of the active club to succeed Mrs. Olive McCall. Those who will serve on the board of directors with her are: Vice presidents, Miss Margaret Vineyard, Miss Evelyn Chastene; secretary-treasurer, Miss Myrtle Foster; social secretary, Miss Hazel Butcher; directors, Mrs. Addie M. Clark, Miss Margaret Gallagher, Miss Marion Bromley, Miss Edna White, Miss Alice Bailey, Mrs. Katharine Manday.

Substantial gifts were made last year to the Ethel Moore Memorial Children's Building, Welfare Work of the city, the California Training Home for Girls, the Oakland Federation of Mothers' Club milk fund.

Six delegates are being sent to the National Educational Association convention next month. A representative was kept in Sacramento during the session of the legislature to watch educational bills.

The School Women's Clubs claim to have initiated the naming of streets in the new Junior High Schools for Susan B. Anthony.

Miss Lobner held an executive board meeting yesterday to outline the work for the coming year.

"Big Five" Would Cut Wages in Stockyards

CHICAGO, June 8.—The "big five" packers late yesterday filed an application with Judge Samuel Aschul, a writer of wage disputes in the packing industry, asking permission to cut wages in the stockyards 5 cents an hour, effective June 13.

Leaders of packing house unions declined to consent officially today to the latest move of the packers. The packers, in asking wage cuts, claim that the reductions are indispensable to the continued successful operation of the packing industry. The brief filed by the packers declares that farmers are losing money because of conditions in the packing industry for which "high wages are directly responsible."

The wage cuts, if granted, will affect approximately 62,000 men. Should the workmen decide not to accept the cuts and go on strike approximately 200,000 workers in half a dozen cities would be involved.

The packing plants at present are working under an agreement reached last March at the instigation of Secretary of Labor Davis, which does not expire until September. By this agreement wages of packing house employees were reduced 5 cents an hour.

WILL WED IN EAST.

Miss Elizabeth Finch of Oakland and John McK. Abrams were granted a marriage license in Boston, Mass., last Friday according to word which has reached this city. Miss Finch said she was a reader. Abrams is an engineer. She broke a record.

UPS "STILL IN PORT."

As time went on, the long list of the Secret Service closed closely around the German artifacts and the machinery of operations more definitely. One another several of the ships Von Bernstorff and Von Papen designated to carry supplies, to designated points: were designated to carry supplies from London, and the situation at London, the German point of origin to be distinctly alarmed.

One night, came a strange phone call from London to the New York office service—a call which, indicated that information had received that the German were planning a move which was a different line. The obvious to be the same, but the situation had been altered.

"I added Marston to his party and they're all delightfully sure of the details. 'Something under way.' That's all we need, if we don't find out what something is we'll be looking new boss next pay-day," said both Donahue and Marston when they began to work less than ten minutes after the receiver had clicked into the Washington end of the distance line. "Something under way." The men had obtained in this position the complete confidence of the German—all had wind of it, but, before the fact that it was to be a naval attempt to defeat the Italian expeditionary force in the Italian fleet, they were to say what it was. In vain the German haunted the docks while he prowled around uptown, to pick up some clue which would lead to a solution of the mystery. The German and other men from New York office shadowed the German sympathizers, while the Inspector Tunney's "bomb squad" kept on the one or two suspicious instances. Whatever the German's plans were, they were covered, and the passage they hour brought with it the fact the scheme might have successfully matured.

was only natural. Donahue did not think of anything but ships. He and the others drank them, dreamed about them, filled every moment of their lives with them. As fast as the daily papers came from the press, they read them to see if something new had developed elsewhere which would give him the lead he was looking for.

But, beyond the usual news from the front, the details of the diplomatic conferences and the movements from abroad, he found nothing.

ly, however, there began to enter into his mind the feeling that this was the solution to the entire mystery. He had been staring him in the face for days. About a week before the wreck, he remembered having seen a man come over the ship with a small item in his hand. "Will Stage Movie at the Palace." There had been a longer conversation dealing with this latest step in picture production. A man had told of the preparations for the picture, and the fourth man had stated upon the fact that this latest picture was to cost \$250,000, or the single scene of the film at sea.

"A real reliever," this article stated, "has been bought out of this purpose and will sail in a few days for the coast of Mexico where the wreck is to be made."

"I'm right," muttered Donahis is something new in Geriplomacy. Usually they try to bull things through or to them in so much mystery that isn't be discovered. But here's as plain as the Woolworth a palpable press agent story the papers are playing up in which is certain to divert m. END ON RETRIEVER.
 , after getting in touch with

Marston and admitting that his idea might be nothing more than the wildest of wild goose chases, Donahue and his partner arranged to visit the dock where the Retriever was tied up that evening. A brief conversation showed them that considerable secrecy was being prac-

ticed on board the boat, presumably for the purpose of throwing the other moving picture companies off the scent, but the two operatives managed to worm their way aboard and a sentence or two in guttural German from between decks showed them that they were on the right track.

Within the hour a squad of government operatives had surrounded the Retriever, and Donahue, the first to visit her hold, made a brief verbal report that cleared up the entire affair.

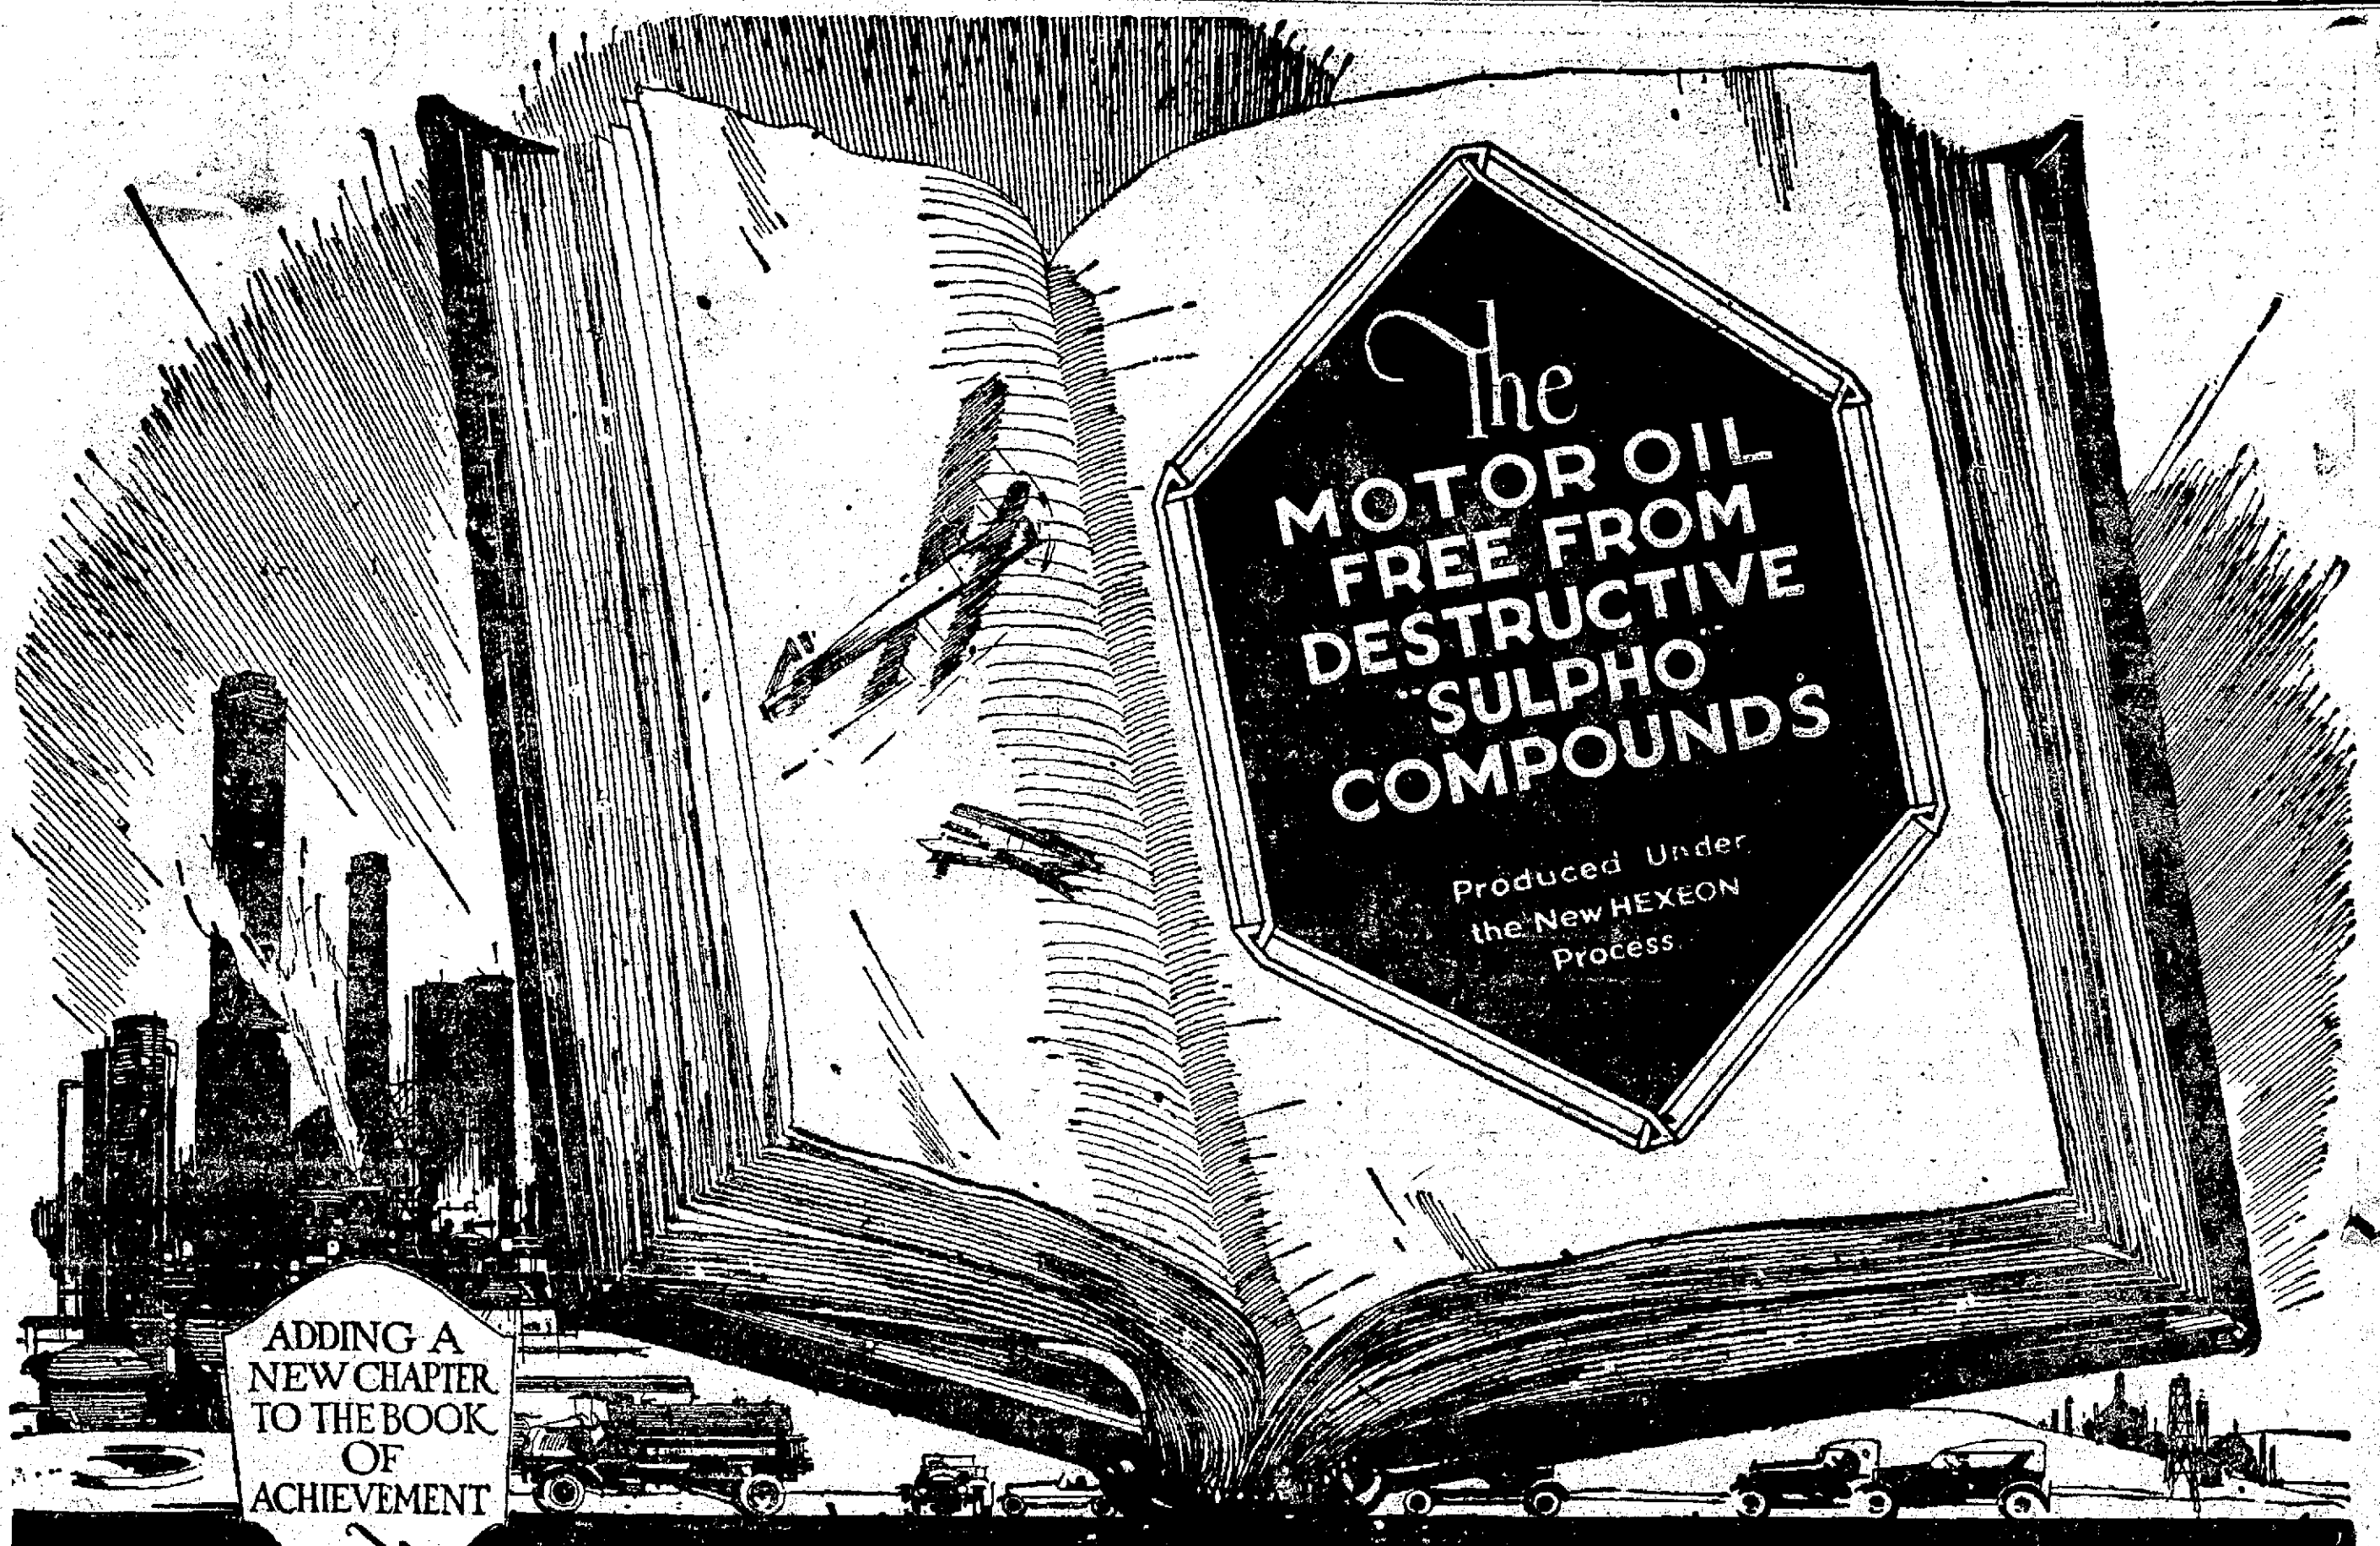

"She's loaded down with coal and food," he called up. "Got enough to run her to Europe, much less to

Nevertheless, the *Retriever* did not set sail and, as Washington learned a day or two later, the entire "daylight plot" collapsed with her capture, thanks to Operative Donahue's ability to look below the surface of things.—Copyright, 1932

The Associated Oil Company presents a revolutionary achievement in scientific lubrication—Cyclo

Cycol is a creation—a new and different motor oil with greater lubricating value. Its chemical characteristics make it different from both "Eastern" and "Western" oils.

Cycol is made possible by the new Hexeon Process developed and used exclusively by the Associated Oil Company.

The Hexeon Process removes destructive "sulpho" compounds found in lubricating oils. Oils containing "sulpho" compounds are broken down rapidly by engine heat.

Breaking down lubricating oil impairs the effectiveness of the lubricating film between all moving parts, causing piston ring leakage, poor compression and loss of power.

The oil in the crank case thus becomes contaminated and its lubricating value is greatly reduced.

The first gallon of perfected Cylcol—the new-day motor oil—represents an investment of three million dollars.

The initial step in creating Cyclo was to find a crude petroleum, suitable for its manufacture. More than 400 different crude oils were analyzed in making the selection.

The new Hexeon Process was developed in our Research Laboratories which were established at a cost of a quarter of a million dollars. We also installed a motor testing laboratory, the first one of its kind on the Pacific Coast. Here Cylcol was

scientifically tested under actual service conditions, in comparison with other motor oils.

Here, too, was prepared the Cylcol Recommendation Chart which indicates the correct grade of Cylcol for every type of internal combustion

players predict prospect themselves. The Oakland time when major San Francisco club owners have broken down to look to the future when a number of clubs in the Pacific International and Western Canadian leagues want to take Lane Shults of the Oaks will give him his outright release, but Superintendent Del Howard and Earl Hiltner and Paris Buttsback were other young pitchers farmed by the Oaks, while Graham farmed one or two to be recalled later in the season.

Now there are indications of a slack in the developing of young pitchers in the cities for the youngsters as there was some years ago, and each year the playing fields in the cities are disappearing faster. So most of the playing by the bushers, except in the winter time, is done out in the country towns, such as the San Joaquin, Mission, Tri-City, and other leagues. E. O. Athletics Win Their First Game

The East Oakland Athletics Club has today won a first league game and started off with a win. The team has a good bunch of players, including the home run king, Jimmie Walker, who hit a home run in the ninth inning to win the game. The team was down to the wire, but they managed to pull it out in the bottom of the ninth.

DENNY WILIE, Oakland outfielder, is probably the most earnest player in the game. Denny has been chasing flies in professional baseball for some dozen years or so and was never known to smile until this picture was made. It is a special from Sacramento snapped just as Babe Pinelli was delivering a right-hand sock to Umpire Byron's chin. Nothing else would have made Willie grin.

RAINIER'S DEFEAT THE BEAVERS IN FIRST GAME

PORTLAND, June 8.—Four runs in the first inning off pitching of Herman Pilleite gave the Seattle Rainiers enough lead to defeat the Portland Beavers yesterday. The final score was 5 to 3. Bob Geary did the chugging for the Rainiers and had but one bad inning, the fifth, when the Beavers scored two runs. Sammy Halo started with the bat for the Rainiers by hitting three doubles and a single. The score:

Bill Steen on the mound for the Visalia club, and Ralph Stroud decorated a live position for the Hanford team in the San Joaquin valley league must have thought that they were pitching to batters in some of that Salt Lake attitude, for there wasn't a game staged at Visalia this season before that was featured by as heavy hitting as took place here Sunday when Hanford won from Visalia in ten innings by an 11 to 6 score.

Both pitchers were touched for fifteen hits, and four off each of them for home runs. Stroud, the pitcher for Hanford, connected for two of the homers, and the others for that club went to Coleman and Brandon. Ted Brandon hit a couple of home runs off Stroud, Thompson and Benn each hit one. Errors at critical stages were made by Steen, Stroud, Coleman, and Benn. Steen, Coleman, and Benn were all hit by home runs. Stroud was hit by a home run. Steen was hit by a home run. Steen was hit by a home run.

Dell Stars When Tigers Defeat Oaks

Denny Willie Wanted to Eat Baseball After Making Costly Muff

LOS ANGELES, June 8.—Denny Willie, the scrappy outfielder of the Oakland baseball club, did a couple of second thoughts at the local ball park yesterday afternoon. Otherwise the owners of the Vernon baseball club would have been out a couple of dollars. The price of a baseball, Denny muffed a fly ball in the fifth inning that allowed the Tigers to tie the score, and finally won in the seventh inning by a 3 to 2 score. Willie was so mad over the muff that he first wanted to dig his spikes into the base, but he was stopped by the umpire. He wanted to bite his initials into it, and last he made a bluff to leave the ball over the fence. But Denny failed to carry out any one of his wishes, maybe because another runner might go home from third base, or that he feared some of the umpire would slap a fine on him. For Denny says that all the umpires in the country are always ready to put something over on him.

Dell Did Some Fine Pitching and Hitting

Five hits were made off of Dell, and six off of Willie. The Tigers won in the second inning for the Oaks' first hit, and Koehler got another in the third. After Guisto walked and two were put out of the way in the fourth inning for Oakland, Erubaker scored Guisto with a triple, and P. Smith drove Erubaker home with a single. That finished the Oaks right there, for no other hit was made off Dell until the ninth when Koehler scored his winning run with a single with one out, and was hit at second by Brubaker. A. Wheeler Dell got two of the Tigers' hits and scored one. Two were scored in the third he connected for a triple and scored when Chadbourne walked. In the fifth, when the Tigers tied the score, Chadbourne walked, high beat out, and then a double by Edgerton's fly and Chadbourne scored. In the seventh, Dell beat out an infield hit, advanced to second on Koehler's passed ball, and scored on a throw, and he came home after High flew to Cooper.

COALINGA

Coalinga 4, Dinuba 1. The Coalinga team played a steady game and fanned eight. Dinuba made five runs in the eighth inning on a flick of the bat and some. The Coalinga team was today the Coalinga team to a 4 to 1 win over Dinuba. It was the tenth beating for Dinuba in as many games played.

CONGRESSMAN MOVES TO STOP THE HEAVYWEIGHT BATTLE

EAST CONCEDES THE UNIVERSITY OF CALIFORNIA ROWING CREW A BIG CHANCE IN REGATTA

CHAMPION WILL CARRY TEN POUNDS MORE THAN HE DID IN TOLEDO BOUT

Corbett Does Not Think Extra Pounding Will Affect Heavyweight Champion's Speed

By JAMES J. CORBETT
Former Heavyweight Champion of the World
Written expressly for the International News Service
(Copyright, 1921, by International News Service)
NEW YORK, June 8.—Jack Dempsey is going to carry more poundage into the ring against Georges Carpentier July 2 than he has ever carried into a fight before. Since he won the title from Jess Willard at Toledo, the lad from Salt Lake has reached his full growth. He has broadened out.

When he crawls through the ropes with Carpentier he will weigh between 190 and 195 pounds, 1 am told, and this will be nearly ten pounds more than he took into the ring at Toledo when his weight was announced as 187.

With this much poundage on his frame, the champion will have an advantage of between fifteen and twenty pounds over Georges Carpentier, whose natural weight hangs close around 170.

Carpentier was weighed—in private—several days ago by Manager Desamps and afterwards at his Manhattan training camp it was announced that he tipped the beam at 172. When he first landed he weighed 175 pounds, so he has not lost much weight through his exertions in training to date and when he enters the ring with Dempsey he will weigh about the same. His object is to keep his weight as uniform as possible and go into the ring strong, weighing as much as he can without impairing his speed.

I do not believe the extra poundage Dempsey will carry will slow him up in the least. He is the right build and the extra poundage should merely lend that much weight to his punches.

The weight Dempsey carried when he fought Benjamen Caen at Toledo, his actual weight today, shows beyond a doubt that he was in poor condition at the time of the fight. Figures given out by the boxing commission credited the champion with 183 pounds and he certainly did not look to weigh any more. Today Dempsey weighs 197, which means that he has taken off some five pounds since he started working at Atlantic City. When he first arrived there he tipped the beam at 202, but he lost a trifle fat around the middle section.

When Fitzsimmons Took the Title

The heavyweight championship slipped out of the grasp of an American for the first time on St. Patrick's Day, 1897, when Robert Fitzsimmons, the Irishman, defeated James J. Corbett in the fourteenth round at Carson City, Nev.

This occasion was the first of its kind that moving pictures were taken. Both fighters were in the ring, and the spectators were able to see the fight from the beginning to the end.

Four-Rounders Will Swap Wallops in Neptune Beach Ring

The mermaids will not be the attraction at Neptune Beach tonight. The little four-rounders having obtained possession of the resort for one evening, the ladies of the beach, has shaken together a good looking card of real amateur bouts for the benefit of the community.

Jimmy Duffy Makes A Big Hit When He Beats Hunefeld

LOS ANGELES, June 8.—Jimmy Duffy thoroughly convinced fight fans of his cleverness as a boxer when he scientifically knocked Willie Hunefeld at the Vernon arena last night in the main event. In the third round, Duffy landed a terrific right-hand blow, which sent Hunefeld reeling.

And a Fine Time Was Enjoyed By All

LIVESTON, June 8.—All the box fighting is not done in the ring. Some of it developed here Sunday in a game between the Livingston Cubs and the Oakland team. In the eighth, with the score 13 to 12 in favor of Oakland, Fred Herman and a free-for-all resulted on the diamond, resulting from decisions by the umpire.

JACK DID THIS VOLUNTARILY

Look at the world's heavyweight champion standing on his neck. Dempsey, however, assumed the pose voluntarily and there was no propelling punch connected with it. Jack is doing some of his well-known floor exercises at his camp in Atlantic City.

Reward War Fighters First, Says Gallivan

(By Associated Press)
WASHINGTON, June 8.—A resolution designed to prohibit the Dempsey-Carpentier fight at Jersey City July 2 unless Congress meanwhile shall have "fairly treated" Americans who served in the world war was introduced in the House today by Representative Gallivan, Democrat, of Massachusetts.

In a statement Representative Gallivan characterized Dempsey as "a big bum who dodged the draft" and declared that France had been at war for months before Carpentier joined the colors.

"I am opposed to this international bout on American soil where millions of American money are to be wasted until the American service men and women have been fairly treated by the American government," Gallivan said.

WASHINGTON, June 8.—Prohibition of the Carpentier-Dempsey fight scheduled for July 2 until Congress grants a bonus to those who fought in the world war is provided in a resolution introduced in the House today by Representative Gallivan of Massachusetts.

The resolution prohibits the fight for the world championship in any state until war fighters are rewarded.

In his resolution Gallivan attacks Dempsey as "a big bum who dodged the draft" and says Carpentier was slow in joining the colors of his country.

GOLF

By W.D. McNicoll

At Claremont yesterday an invitational golf tournament was held. The winner turned up in Mrs. E. Anderson, from San Francisco, with a good medal round of 88-10-18.

The tombstone tournament held last week resulted in a close contest. There were twenty entries. Players were given their regular handicaps.

The Ecclesite tournament which was played during April and May was finally won by Mrs. R. H. Yates, her best handicap score being 84.

In conjunction with the sweepstake event yesterday the following players qualified for the eight places in match play for this month's contest.

Mrs. C. F. Ford (9) plays Mrs. R. Yates (6).
Mrs. E. P. Legare (5) plays Mrs. F. M. Ayer (7).
Mrs. H. A. Prole (1) plays Mrs. C. Waterman (3).
Mrs. K. B. Fay (7) plays Mrs. C. A. Stacy (3).

RUFÉ TURNER, OLD TIMER, STILL IN THE RING

STOCKTON, June 8.—Rufe Turner, 20 years ago aspirant for lightweight honors, and one of the best men of his weight in the country today, is still fighting—and successfully. He writes to an old Stockton friend from the Island of Cuba that he is instructor of a new athletic club there, fighting occasionally and prospering.

His wealth in lands and houses and his health are happily married. He is a cheerful and big fellow in three rounds and allowed another to stay for a while, hoping for another fight, but the bird ran out on him. Turner, a native of Stockton, is a brother of Charley Turner, once a noted lightweight himself. Rufe had an awful wallop, but didn't like to train. However, he is telling, for despite his 40-odd years he is still young in mind and body and able to go the route.

Carpentier Is Hiding From Correspondents

Cus Wilson Says Georges Ran Down and Caught a Rabbit.

By JACK McALLISTER
Written for the United Press.
MANHASSET, N. Y., June 8.—We need X-rays and surgeons to cut a look at the Frenchman now. Outside of the road work that he takes through the woods he is keeping himself under cover.

When Carpentier goes on the road now he has an advance guard to clear the path of photographers since an occurrence the other day. A movie man had his camera in the weeds along the line of march and got about 500 feet of the French champion and his party coming down the road before they heard the click of the machine.

They made a dash for him but he was too fast and got away with the film. Since then they're watching all the time.

Cus Wilson, who hands out news when he is not rubbing the Frenchman, pressing his clothes, etc., handed us a hot one. The other day Carpentier saw a rabbit in the woods and decided he would be a nice souvenir. So he ran down the rabbit after a long chase and grabbed him by the ears on the fly.

The Frenchman had eye for the round athlete. We haven't seen a thing of the new sparring partner. Carpentier's bud eye has been in the clinch game that some were coming but he's getting an tightening up his punches.

"No, no—got out" man. We asked Desamps if Carpentier would go after Dempsey's bud eye. He said, "You be Jersey City July 2 and you see what we do. We not say or you not see before," he answered.

Georges Feels Good Since He Dropped Old Joe Jeanette

MANHASSET, N. Y., June 8.—Georges Carpentier, when he steps into the ring at Jersey City on July 2, will wear a white robe with figures of a Japanese design.

When he sheds the robe he will wear wearing trunks of the same pattern that he has used in all his latest bouts. Pure white they will be with a blue stripe down the sides.

San Rafael Nine Defeats Maxwells

The Maxwell Hardware baseball club of Oakland traveled to San Rafael and returned on the short end of a 2 to 0 score. Parker started in the box for the losers but lasted four innings, giving way to Brown. For the victors, Hughes threw a steady ball, but five safeties, while Burmeister's hitting was responsible for a good number of runs.

San Rafael's victory was a hard-fought one, and the team was praised for their performance. The game was a close one, and the victory was a well-deserved one.

Morris Kirskey Says He Had An Injured Leg

STANFORD, UNIVERSITY, June 8.—Morris Kirskey, Jess Wells and Lane Falk, members of the Stanford track team which competed in the I. C. A. A. A. meet in Boston, have returned to the campus.

Coach "Dink" Templeton, who accompanied the squad, stopped off in South Dakota on the return trip, while Bob Williams, who competed in the high hurdles and the high jump, will remain in the east for the summer.

According to Kirskey the reason he did not enter the two-mile race at the Princeton meet was the sore leg which bothered him all season. Although he took first place in the century, he declared that he was forced to limp during the last twenty yards on account of his leg.

According to all the Cardinal men, the Bruins' win in the meet was well earned.

Bruins Have Big Chance at Poughkeepsie

University of California Have Proved They Can Go a Distance.

By HENRY L. FARRELL
United Press Staff Correspondent
NEW YORK, June 8.—Californians have a good chance to add to the glory already piled for the Pacific Coast by winning the intercollegiate rowing championship.

It is known that the big husky rowers can go the three-mile distance at a high stroke. That isn't sure of the other entries. It seems certain that before the start the Californians will be the favorites for the championship.

California showed in the Princeton race that it is a long-distance team and not built for sprinting. They showed a world of power in the shell, the possible exception of navy's crew, no finer or better looking specimens of manhood have been seen in the East.

MEN TELL OF
FIFTY YEARS OF
MISSION WORK

gress Is Shown By Reports
At American Baptist
Society Meeting.

Results of fifty years of
missionary work in carrying forward
of the American Baptist Society
in every branch of church
work, were the chief points made by
the speakers at the annual meeting of
the American Baptist Society, which
closed its opening session in the
Baptist church today.

Reports from district officers in-
dicated the progress made by the
society during the past year, both
locally and in extending the
reach of its endeavors. Sixty
years from the time that the
district officers were first elected, the
district officers are contemplating enter-
ing into a new era of mission work,
according to the report of the
district officers. Mrs. J. M. Brough of Los
Angeles, first vice-president of the
district, said that the district officers
have a great deal to do in the future.
She said that the district officers

CHANGE IN 50 YEARS.
Fifty years ago, she said, "If
the women wanted to hold a
meeting, they were relegated to a
small room in the back of the church.
They were not to interfere with the
men. Today, however, the women
are recognized as equals, and are
allowed to sit on the General
Assembly which controls our church."
Mrs. John E. Scott of Pasadena,
president of the South Pacific Dis-
trict, spoke on behalf of the society,
saying that the district officers
have been extended to the de-
legates. She traced the history of
missionary movement since its
beginning fifty years ago, emphasizing
the magnitude which it has at-
tained, for, as she said, "it reaches
the most outlying districts on the
earth."

Following the reports by the dis-
trict officers, the representatives of
various allied organizations gave
reports on the work being carried on.
SILVER VASE AWARDED.
One of the interesting features of
the morning session was the award-
ing of the Edmonds Silver Vase to
women of the Sacramento associa-
tion. Mrs. M. Grant Edmonds of
Sacramento, the donor of the vase,
presented it to representatives of the
association. The vase is given each
year to the association in the
South Pacific District which
shows the highest in reading
and recitation. For two years, it has
been won by the Santa Ana associa-
tion. The association which wins the
vase in three consecutive years keeps
it as a permanent trophy.

With the exception of district and
local officers, who were called
together in a district officers' meet-
ing yesterday afternoon at 2:30
o'clock, yesterday was spent in re-
gistration and resting. The delegates
were housed at various homes
members of the society, in Berke-

JUROR ABSENT IN
MURDER TRIAL

Panel Being Chosen To Hear
Charges in Shipyard
Slaying.

When the murder trial of Captain
Daniel Ferguson, former guard at
the Bethlehem Shipbuilding com-
pany's plant in Alameda, who is al-
leged to have shot and killed Paul
Goldstone, a shipyard worker, fol-
lowing a quarrel, was called before
Superior Judge George Samuels to-
day, there were but eleven jurors in
the box. The twelfth, William N.
Ellsworth, a real estate man residing
at 3714 Diamond avenue, was absent.
He had been absent since 3 o'clock
yesterday afternoon when the selec-
tion of the jury was continued until
today.

The questioning of Mrs. Julia Cru-
za, 1221 Linden street, was continued.
In the meantime Ellsworth, the mis-
sing juror, put in his appearance
and took his seat in the jury box.
When Mrs. Cruza had been excused
because she opposed the death pen-
alty, Judge Samuels told Ellsworth to
stand up.

BUSINESS PRESSING.

"Why were you absent from this
court room at 3 o'clock yesterday?"
Judge Samuels asked, "and why did
you not arrive this morning at the
proper time?"

Ellsworth explained that he had
had a pressing business engagement
and presumed that in such cases it
was perfectly proper for him to be
absent himself.

"Anyway," he continued, "I
thought court had adjourned."

"Is your hearing good?" he was
asked.

"Sure. Perfectly," said Ellsworth.
"Then listen to this and see if you
can remember what I say," said the
court. "We will continue with this
murder trial but upon its conclusion
I shall hear your excuse and pass
judgment."

SELECTION TOMORROW.

It is not likely that a final trial
jury will be selected before tomor-
row. At a late hour today twelve
jurors had temporarily been passed.

New numbers for
your player piano

I'LL KEEP ON LOVING YOU"

—a new fox-trot arrangement of this air
played by Max Kortlander. Play it lightly,
accenting every long note. Use the sustain-
ing pedal very sparingly.

"MAKE BELIEVE"—fox-trot.

Two different rolls, both excellent. Which
do you prefer, the orchestral type or the
simple?

"THE POTOMAC MARCH"—

sounds like a band coming down the street.
Speed it up a little, and it's a great one-step.
Words are printed on it for singing.

Each player roll, \$1.25.
Mail orders carefully filled.

Cabinets for your player rolls are a necessity.
Have you one? Confer with us about this.

Civic Leaders Approve
School Budget Salaries

A tentative vote to include \$2,854,-
930.15 in the new budget for actual
salaries of the teaching staff for
1921-22, was adopted last night by
the Board of Education, after which
a general discussion ensued concern-
ing teachers' salaries and the meet-
ing was adjourned till Thursday
afternoon.

The sum decided upon represents
91.3 of the total expenditure for
school maintenance, according to Su-
perintendent of Schools Fred M.
Hunter.

CIVIC LEADERS ATTEND.
The meeting was attended by lead-
ers of civic and commercial organi-
zations who had been invited to form
this committee. Some of them, in-
cluding E. W. Williams of the Alame-
da County Tax Association, said
they were not ready to vote upon
such large amounts at such short

notice. Economy was the keynote of
practically all the talks.
The sum decided upon for salaries
represents the proven cost of operat-
ing last year with 1317 teachers, plus
the salaries of 101 more teachers of
all grades, plus the "automatic in-
crease" given teachers who have
added another year of service to
their record.

The 101 new teachers will be
necessary to take care of the year's
increase in school population. The
teachers' associations had recom-
mended that there be 119 teachers,
32 for high schools, 25 for junior
high and 62 for elementary. The
superintendent of schools pared this
down to 15 for high schools, 32 for
junior high schools and 54 for ele-
mentary.

The cost of salaries of employees
on the entire teaching staff for the
ensuing year has been tabulated as
follows:

	New Teachers	Automatic Increase	Total
Elementary	\$1,010,274.02	\$87,389	\$1,097,663.02
Junior High	\$712,603.00	\$85,450	\$798,053.00
High	\$732,304.54	\$90,000	\$822,304.54
Total	\$2,455,181.56	\$262,839	\$2,718,020.56

These figures are based on a 200-
day school year. The past year,
however, was nine days short, and
the Oakland Teachers' Association
has requested that \$180 per teacher
be set aside in the budget to pro-
vide for money lost by the teachers
when they could not be employed.

"We do not care which way we
go it, so long as we get it," said the
educators.

George M. Thirlot, representing
the teachers' salary committee,
brought charts comparing teachers'
salaries with those of other occupa-
tions and it is expected that sev-
eral new jurors will be questioned be-
fore the jury is completed. W. H. L.
Hynes is representing Captain Fergu-
son and Frank M. Shay is in charge
of the prosecution.

Those so far passed are Mrs. Sarah
L. Cowen, 1311 Grove street; Thomas
Dodds, 2314 Channing way, Berke-
ley; William N. Ellsworth, 3714
Diamond avenue; Mrs. Alice Griffin,
1730 Carlton street, Berkeley; Ed-
ward L. Hunt, 3316 Carlton street,
Berkeley; Marcelle Lawlor, Liver-
more; M. L. Mitchell, 50 Fairview
avenue, Piedmont; Mrs. Ida Pate,
3640 Maple avenue; Mrs. Sarah Pe-
tel, 1311 East Twenty-eighth, I. M.
Rilea, 1209 Adeline street; Mrs. A.
G. Smith, Peralta apartment; Mrs.
Maude Van Amringe, 2565 Diamond
avenue.

The characters of the "messengers
from the field" will be portrayed by
the following representatives of the
society, who are in Oakland for the
convention: Burma, Dr. Ma Saw Sa;
South Indian, W. Namdiah, As-
sum, Mrs. J. E. Wasson; Bengal-
Orissa, Khanto Bala Roy; China,
Kan En Yong; Africa, Mrs. H. G.
Allen; Czechoslovakia, Mrs. Frances
Kaiser; Poland, Miss Martha
Wencke; France, Mrs. A. E. Cald-
well; Japan, Miss J. Utsumi.

Mrs. B. C. Davis, jubilee president;
Mrs. J. M. Brough, district vice-
president; Mrs. John Snape, State
president; Mrs. H. A. Johnson, State
secretary, and Mrs. G. J. Oshrie, as-
sociational secretary, will lead the
processional. Chorus will be repre-
sented by Mrs. A. P. Brown; the
World Wide Guild by girls from the
Swedish Baptist church; the Chil-
dren's World movement by J. E.
Wasson, Jr., and the Volunteers by
Miss Bertha Meyers. The organist
will be Mrs. Martha Duke Parker;
the pianist, Mrs. Carrie Jacobs, and
the soloist, Ruth Hall Crandall. Mrs.
George E. Thompson of Alameda is di-
recting the pageant.

The following delegates arrived
yesterday from Nevada:
Mrs. Frank Gunter, Sparks, State
president; Mrs. William Van Tassie,
Sparks, State secretary; Mrs. H. E.
Proctor, Sparks, White
Cross supervisor; Mrs. G. L. Snyder,
Sparks, recruiting officer; Mrs. G. L.
Gardner, Alma, Calif., secretary of
the Children's World Crusade.

The following delegates arrived
from Arizona:
Mrs. L. W. Coggins, Phoenix, State
president; Mrs. Warner Watkins,
Phoenix, secretary-director; Mrs. G.

H. Woodson, Phoenix, director of the
World Wide Guild; Mrs. C. F. Mor-
ris, Prescott, director of the Chil-
dren's World Crusade; Mrs. M. L.
Butler, Bisbee, White Cross director;
Mrs. L. L. Harmon, Phoenix, recruit-
ing officer; Mrs. H. H. Morton, Tem-
pe, college counselor.

Mrs. W. R. Brown of Minneapolis
registered yesterday as a special de-
legate from the Northwestern dis-
trict.

PAGEANT PLANNED

Baptist leaders agree that the most
important feature of the entire
convention will be the pageant, "The
Call and the Answer," written by
Mrs. Helen Barrett Montgomery, na-
tional president of the organization,
which will be given Thursday even-
ing at the closing session of the con-
vention. The pageant exemplifies

MILK

WHY DOES VALLEY
MILK COST LESS?

It costs less because it
is so clean and lasts
longer; also because it
has more cream for the
same price. Order it to-

DISTRICT LEADERS
AT SESSION HERE

Five Delegates Elected To
Attend National Con-
vention in North.

District officers were chosen and
installed and delegates to the na-
tional convention which meets in
Portland for five days beginning July
14, elected last night at the closing
session of the twenty-second district
circle convention of the Neighbors
of Woodcraft, held in Oakland Au-
ditorium.

Mrs. Ida Esterday of Niles was
elected district guardian for the
coming year. Other district officers
chosen were: Isabel Gannini of
Stockton; district advisor, Edna Tro-
rich of Tracy; district clerk; Estelle
Byrnes of Vallejo; district banker;
Ardena Smith of Oakland; Leona
Symson of Hayward and Annika
Kerns of Alameda, district man-
agers; Harriette Clark of Benicia,
district magician; Mabel Stevens of
Berkeley, district attendant; Mrs.
Manderson of Oakland, captain of
the guards; Mrs. Hutchins of Crook-
ett, outside sentinel; Mrs. Inge of
Tuluma, inside sentinel; Mrs.
Moyle, musician.

Five delegates were named to the
national convention to be held in
Portland. They are: Mesdames
Winfred Halter of Oakland, Emily
Wright of Richmond, Louise Kruger
of Alameda, Helen Brown of Oak-
land and L. E. Bowers of Berkeley.
The alternates are Carry Loghead,
Sarah Dunn, Clara Kuhns, Esther
Fry and Georgia Sanders.
Vallejo was selected as the place
for next year's annual meeting.

Women War Workers
To Have Luncheon

A "Get Together Luncheon" is an-
nounced by the women's section of
the Varsity League of Alameda County
for Saturday at Capwell's roof gar-
den. Although war ended intensive
work, the women who make up the
patriotic organization are finding a
large task before them in keeping
supplied the men who wear the blue
with small comforts and necessities.
Following the luncheon a conference
will be held. Mrs. Leigh Richmond
Smith, regent will preside.

per Share Down
and \$14 per share every three months

THE cost of money has not yet
come down like the cost of com-
modities. As the cost does come down,
you will not have the opportunity of
buying safe stock that yields such a
high return—approximately 7.70% or
about \$7.70 for every \$100 you invest.

By simply paying \$10 down for
each share purchased now, you will
secure for yourself stock that cannot
be bought so advantageously when
money costs are lower.

Act at once. Send in your sub-

How Many Men
Sixty Years Old
Are Worth \$15,000?

Not so many as you might think, as you will find by canvassing your list of acquaintances among men of that age. As a matter of fact, the great majority are dependent upon their earnings or upon others for support.

But if a man opens a savings account at the age of twenty and adds to it regularly 50c for every working day, it will amount, with interest, to more than \$15,000 when he is sixty.

Odd Bits of Humor

The most dangerous thing about a widow is her predilection for marrying an innocent bystander. Neil—Is it really true that you're going to divorce Bob? Bella—Yes, I'm tired of being alone. "I thought you said you had a model!" "I did." "But she left you!" "Yes, but a 1921 model. That's the one!" Mrs. Flatoush—Did your cook do you any notice when she was about to leave? Mrs. Bensonhurst—No, she hardly noticed to at all.
